## Vice Chancellor's Message

I am immensely pleased that you are genuinely interested in seeking admission at the University of Engineering and Technology, Taxila, one of the premier, full services engineering university of this nation ranked 4th amongst the engineering education institutions. This prospectus in your hands will guide you and answer certain critical questions that you may have regarding the Undergraduate engineering education at this university and its sub campus. As you know, the admission at this University is very competitive and would require best of what you have before, during and after the admission to ensure an accomplished career in engineering profession. Once you join UET, you are part of UET fraternity. We have adopted a slogan for the year 2012-2013, "Student Centered University" as such we aspire to present the best of what we have in academic and social environment, a lively and thriving campus where students test and polish their best. The University will certainly look after you and make its best efforts to groom you as not only true citizens but a genuine guardian of Pakistan. You will always be guided by best faculty in the best possible ways, but the ultimate success will certainly depend on your sincere efforts, will to work, capacity to outshine with the brilliance that you possess. UET, Taxila is ideally located in an exclusively peaceful and secure environment in the centre of heavy industrial zone. On the one hand it is free from the maddening crowd of the cities and on the other hand very close to big cities like Rawalpindi, Islamabad and Peshawar- best of the both worlds.

In today's knowledge based world, what distinguishes a quality education institution from an ordinary one is its capacity to create new knowledge and its ability to apply this knowledge to create innovative and marketable products and services. Today's world is growing more global, complex and interconnected. Advancement in science and technology is the single most reason in the economic and societal development, prosperity and success of nations. Education plays a pivotal role in the nation building and its development

because economic prosperity, political stability and social development are inter-linked with scientific and technological advancement which is the outcome of good education. This University has consistently produced world class engineers for the last 38 years active around the globe and you are at the beginning of becoming part of accomplished elite.

We as a University will equip you with the vision, knowledge and management and leadership skills necessary to succeed. Our faculty and our facilities, our process, procedures and systems are aligned for a smooth and enlightening academic experience. A fine blend of academic, research and administrative human resources, state of the art, purpose built and elaborate network of laboratories, sports facilities and environment for cultural enrichment is the hall mark of UET, Taxila. Our students advisory system, financial support office, placement and alumni relations office, health facilities are all geared to serve the student community. Broadband wireless across the campus, well stocked library, newly built cafeteria, fleet of transport all support a comfortable campus environment. The university has a wide range of disciplines and making efforts to add many more from the array of new disciplines to its canvass according to the market needs so that the graduates have wide choices and when they graduate and complete their engineering education they are quickly absorbed in the job market.

We had a glorious past, a vibrant present and certainly promising future. Our Quaid said, "Education does not merely mean academic education; we have to build the character of our future generation which means highest sense of honor, integrity, selfless service to the nation and a sense of responsibility". We cherish this vision and ambitions of our founding father and are adequately equipped to realize this vision. Your work has started and so is ours, let us accomplish together- we shall make a winning combination.

# CODE OF ETHICS

For the seekers and practitioners  
of the magnificent science of  
engineering

## IN THE NAME OF ALLAH, THE BENEFICENT, THE MERCIFUL

- You shall be honest, faithful and just, and shall not act in any manner derogatory to the honor, integrity and dignity of the engineering profession.
- You shall not injure, maliciously, directly or indirectly, the reputation or employment of another engineer, nor shall you fail to act equitably while performing professional duty.
- You shall use your knowledge and skill of engineering for human welfare, and render professional service and advance, which reflects your best professional service and advance, which reflects your best professional judgment.
- You shall not abuse your position or power, nor accept illegal gratification of any sort.
- You shall faithfully observe and fulfill all your obligations.
- You shall express your opinion on engineering or other matters in a frank, open and straightforward manner.
- You shall not criticize another engineer's work without his knowledge nor malign, or injure his professional reputation.
- You shall not ridicule fellow engineers nor let one discipline of engineering derides other disciplines or professions.
- You shall not directly or indirectly discredit other engineers nor assign (derogatory) epithets to their persons or work.
- Your professional advice shall be based on full knowledge of the facts and honest conviction, and you shall not write articles or advertise in self-laudatory or in any manner derogatory to the dignity of the profession.
- You shall ascertain facts before accepting them and shall not encourage or cause others to carry tales. Credulity is no credit.
- You shall help one another in upholding and doing that is right, and shall not associate with those who transgress and those who indulge in unethical practices.
- You shall be kind and considerate to others and shall not fail to be cooperative and accommodating.
- You shall decide matters of common professional interest by mutual consultation.

# INTRODUCTION

## THE CITY OF TAXILA

The antique name 'Takshasila' means the city of cut stones. Taxila has gained worldwide eminence for its archaeological sites. Once a province of the powerful Achaemenian empire, Taxila was conquered by Alexander in 327 BC. It later came under the Mauryan dynasty and attained a remarkably mature level of development under the great Ashoka. Then appeared the Indo-Greek descendants of Alexander's warriors and finally came the most creative period of Gandhara. The great Kushan dynasty was established some where near 50 AD. During the next 200 years Taxila became a renowned centre of learning, philosophy, art and religion, Jaulian being a centre of excellence or a university of that age. Pilgrims and travelers were attracted to it from as far away as China and Greece.

History took a new turn around 1950 when Ordnance Factories were founded at Wah, adjacent to Taxila. The country's largest Mechanical Complex and Foundry were established at Taxila in mid sixties. In early seventies, the industrial progress attained a new dimension when Taxila was chosen to have Heavy Industries Taxila near its world famous museum. At the same time Pakistan's largest Aeronautical Complex was established at Kamra which is about 45 km from Taxila. In mid seventies, government of the Punjab found the city ideally suitable for establishing the constituent college of University of Engineering and Technology, Lahore

Industrial progress in and around Taxila is gaining a newer pace. The neighboring industrial organizations are in the process of rapid expansion. A new industrial zone has emerged in Hattar area, which is about 20 km away from Taxila. Taxila is emerging as a leading industrial region at the national level. The strategic location is paving way for the city to act as a gateway to historical "Silk Route".

## THE UNIVERSITY

With phenomenal increase in students' enrollment in 1970's, a plan to establish additional campuses of the University of Engineering and Technology Lahore was conceived. As a result of that, the University College of Engineering Taxila was established in 1975. For three years it functioned at Sahiwal. In 1978 it was shifted to its permanent location at Taxila. The College continued its working under the administrative control of the University of Engineering and Technology, Lahore till October 1993. During this month it received its charter as an independent university under the University of Engineering and Technology Taxila Ordinance 1993. At present total enrollment of undergraduate and postgraduate students is above 2000.

## ADMINISTRATION

The Governor of Punjab is the Chancellor and the Education Minister of Punjab is the Pro-Chancellor of the University. The Syndicate is the governing/legislative body and the Academic Council is the highest academic body of

the University. The Vice-Chancellor is the Chief Executive and Academic Officer of the University. He is assisted by Deans of Faculties, Chairmen of Departments, Directors and Principal Officers of the University – the Registrar, the Treasurer, the Controller of Examinations and the Project Director, to ensure that the provisions of the University Act, the Statutes and the Regulations are faithfully observed and implemented.

## LOCATION

The University campus is located on the outskirts of Taxila at a distance of 5 km from the city. It is situated near railway station Mohra Shah Wali Shah on Taxila-Havelian branch line. The city of Taxila is 35 km from the twin cities of Islamabad and Rawalpindi on the main Rawalpindi-Peshawar highway. The University buses commute daily between the campus and the cities of Islamabad, Rawalpindi and Wah Cantt. The campus covers an area of 163 acres. All the teaching departments, residential colony for teachers/ employees, student hostels, guesthouse, post office and bank are housed on campus.

# ACADEMIC PROGRAMS

The University offers B.Sc. Degree Courses in Civil, Computer, Electrical, Mechanical, Software, Telecommunication, Environmental, Electronic and Industrial Engineering at Main Campus, Taxila Sub Campus Chakwal offers B.Sc. Degree Courses in Mechatronics and Electronics Engineering.

## The Department

Department of Civil Engineering is actively engaged in disseminating civil engineering education for the last thirty seven years. The Department has produced several eminent engineers who have made significant contributions in the planning and execution of Civil Engineering projects in Pakistan as well as abroad.

The Department of Civil Engineering has an academic staff of 29, nearly 60% of whom contribute to postgraduate teaching and are involved in PhD research work. Approximately 650 undergraduate and 141 postgraduate students are registered in the department. Civil engineers cater to the national needs for buildings, highways, dams, bridges, irrigation network and water supply systems, and are the world's largest users of building materials.

## Courses of Study

The Department of Civil Engineering offers full-time course of four years duration leading to the Bachelors Degree in Civil Engineering. The department also offers graduate courses of study leading to the MSc and PhD degrees in Civil Engineering. In the bachelor's course, emphasis is laid on the fundamental concepts and principles, which constitute the basis of civil engineering practice. To foster their creative abilities, the students are assigned projects on design, construction or laboratory investigation for self directed execution. The classroom and laboratory work is supplemented by the instructional tours to acquaint students with civil engineering projects of national importance. Survey camp is held to impart intensive field training where the students plan and execute survey of large areas independently.

## Laboratories

The department has the following well-equipped nine laboratories to meet the academic requirements of students and teachers as well as the professional needs of the government and private organizations:

- a. Soil Mechanics & Foundation Engineering
- b. Concrete Technology
- c. Strength of Materials
- d. Transportation Engineering
- e. Hydraulics/Fluid Mechanics
- f. Theory of Structures/ Engineering Mechanics
- g. Surveying
- h. Public Health Engineering
- i. CAD laboratory
- j. Postgraduate Research Laboratory

Department upgrades all the laboratories from time to time through the funds provided by Higher Education Commission (HEC) and its own resources. Recently, Department received grants from HEC and Transportation & Structural Engineering Laboratories were upgraded with the state of the art equipment, whereas Hydraulics/Fluid Mechanics Laboratory has been shifted in its new building and new equipment was procured and installed which is functioning. Department has also established Postgraduate Research Laboratory which have latest civil engineering software and research tools.

## Taxila Institute of Transportation Engineering (TITE)

Department of Civil Engineering has established a new institute by the name of "Taxila Institute of Transportation Engineering (TITE)". It is a unique institute of its own kind in Pakistan and will prove to be a focal point for providing education and research facilities in the field of Transportation Engineering.

The institute provides facilities like research laboratories,

lecture rooms for postgraduate students, conference room, computer laboratory and a library. A wide range of state of the art equipment had been procured to facilitate high tech research work.

The mission of the institute is to develop and implement innovative methods, materials, and the technologies for improving transportation efficiency, safety and reliability as well as improving the learning and innovative environment for students, faculty and staff in transportation related areas.

## Postgraduate Studies & Research

In order to satisfy the increasing demand for relevant advanced technological education, the department offers full time and part time MSc degree courses in Structural Engineering, Water Resources and Irrigation Engineering, Transportation Engineering, Soil Mechanics and Foundation Engineering covering the most recent developments. The courses contain a balance of analytical and professional aspects and are designed to suit the needs of fresh graduates and those with professional experience.

The faculty has completed a number of research projects funded by HEC through the Directorate of Advanced Studies, Research and Technological Development. Research papers based upon applied research have been published in journals and conferences of national and international repute.

Most of the postgraduate students belong to the construction industry and act as a bridge for university–industry linkage that makes research in the department to be practical and useful for the country. The introduction of PhD program has further enriched the research activities in the department. Fourteen students have been awarded PhD degrees in various fields. Presently about 21 PhD scholars are pursuing their PhD research work.

Research is being carried out in the following areas:

- a. Structural Engineering
- b. Soil Mechanics and Foundation Engineering
- c. Transportation Engineering

- d. Water Resources and Irrigation Engineering
- e. Hydraulic Engineering
- f. Concrete Technology
- g. Environmental Engineering

Numerical modeling and computer-application in all the research activities are being given special attention. The courses of studies have been designed on the basis of present needs of the Industry. The students are also trained to work independently for solving complex real world problems.

## The Department

The Department of Environmental Engineering is newly established at University of Engineering & Technology Taxila. This Department is working under the Faculty of Civil & Environmental Engineering. Considering the overall environmental crises and issues through out the country, it has been decided to produce well trained professionals in the field of Environmental Engineering. The graduates will be highly motivated and trained to undertake the environmental issues like water and wastewater treatment, air and noise pollution, river and land pollution etc.

## Courses of Study

The Department of Environmental Engineering offers full-time course of four years duration, leading to the bachelor degree in Environmental Engineering. The provided course contents are highly professional and well arranged. The designed course content will support the graduates to enhance their knowledge up to the international standards.

## Future Plans

The Department will offer Master and Doctoral Programmes in the field of Environmental Engineering in near future.

## Courses Under Semester System BSc Environmental Engineering

## The Department

### Vision

Aspiring for a Better World for Next Generation

### Objectives

- To Strive for Excellence with Values.
- To address the challenges of market / industry
- To prepare the students for advanced learning & research in the field of Electrical Engineering

### Core Values

- Integrity
- Self Discipline
- Cognition
- Team Spirit

The Department of Electrical Engineering was established in 1975 with creation of University College of Engineering & Technology, Taxila at Sahiwal. In 1978, the college was

shifted to its permanent location at Taxila. The Electrical Engineering program provides basic preparation for a career in the discipline of Electrical Engineering. The department aims to develop abilities in the students for the application of the knowledge of Electrical Engineering. The students are provided with an educational foundation that prepares them for leadership roles along diverse career paths in the fields concerned with Electronics, Communications, Energy & Power Systems, and Industrial IT: Control & Automation. Presently 200 undergraduate students are enrolled annually. The department has produced more than 2200 graduate students so far.

The undergraduate program offers degree in "Bachelor of Science in Electrical Engineering" with following streams:

- Control
- Computer
- Electronics
- Power
- Telecommunication

An independent and spacious building with a covered area of

66,100 sq.ft is available for the department. The department has three blocks namely: Main Block, Extension Block and Laboratory Block.

## Laboratories and other Facilities

The Electrical Engineering Department has following fourteen well equipped laboratories::

- a. Advanced Control Lab
- b. Basic Control Lab
- c. Basic Electrical Engineering Lab
- d. Computer Lab
- e. Computer Simulation Lab
- f. Digital Systems Lab
- g. Electrical Machines Lab
- h. Electronics Lab
- i. High Voltage & Insulation Testing Lab
- j. Microwave & Communication Lab
- k. Multimedia & Vision Lab
- l. Optoelectronics Lab
- m. Power Systems Lab
- n. Workshop & Projects Lab

These laboratories are upgraded as and when required. The department also shares the resources of Centre of Excellence for ASIC Design & DSP.

## Courses of Study

The Electrical Engineering curriculum develops a thorough understanding of the physical and mathematical principles underlying basic electrical processes and devices and provides students with a foundation in basic science, mathematics and the humanities. Written and oral communication skills are emphasized and developed. The computer as a tool for mathematical analysis, design, data analysis and instrumentation is extensively used.

Most of the courses have an integrated laboratory component which is supported by modern laboratories and state-of-the-art equipment and computers. Strong emphasis is placed on "hands-on" experience. Laboratory projects are encouraged in second and third years whereas final year projects are assigned keeping in view the industrial problems and in most of the cases in consultation with industrial experts. The campus is located in an industrial environment and the students have a fair chance of industrial visits.

The courses in Electrical Engineering include core and elective courses. The Elective Courses are included in the program to provide more breadth to the knowledge. In 3rd and 4th years, the students can register for the Elective Courses according to their interests. Our degree is highly regarded by industry and independent assessors. The course is accredited by the Pakistan Engineering Council as satisfying the academic requirements for Professional Engineer (PE) status.

## Postgraduate Studies & Research

The department started its postgraduate program in 1984 and doctoral study program in 2001. Until now 250 MSc and 19 PhDs have been produced. The postgraduate program offers a degree in "Master of Science in Electrical Engineering" with specializations in

- Electronics
- Power
- Control
- Digital Techniques

The master degree courses are aimed at bringing the students abreast with the most recent developments in their fields of specialization. These courses are offered both for the part time as well as the full-time students. At present 30% students are enrolled in full-time and 70% students are enrolled in the part time program. Most of the part time students are working with major engineering organizations of the country.

Research work being carried out at the department has direct bearing on the needs of national industry. This research is partially funded by the Directorate of Advanced Studies, Research and Technological Development of the University and Higher Education Commission. Projects, to meet the requirements of the neighboring industries are also conducted in the department. The faculty members and postgraduate students have published a significant numbers of research papers in different fields of Electrical Engineering. The department also arranges conferences, seminars and workshops in various areas of Electrical Engineering. The faculty members, postgraduate students and prominent researchers from home and abroad participate in these seminars. The department has a well-stocked and up to date library for use of the teachers and postgraduate students.

## Area of Specialization

Telecommunication	#
Computer	5
Control	6
Electronics	7
Power	8
	9

Note: # represents the digit specifying the area of following specialization.

## List of Electives

### 1. Telecommunication Engineering (5)

- A. Microwave Devices
- B. Communication Systems
- C. Optical Fiber Communication
- D. Radar Systems
- E. Mobile Communication
- F. Satellite Communication
- G. Telecommunication Management
- H. Propagation and Antennas
- I. Electromagnetic Compatibility
- J. Multimedia Communication
- K. Digital Communication
- L. Computer Communication Networks

### 2. Computer Engineering (6)

- A. Computer Communication Networks
- B. Multimedia Communication
- C. Digital Signal Processing
- D. Digital Compression Methods
- E. Computer Graphics
- F. Digital Image Processing
- G. Artificial Intelligence and Neural Networks
- H. Embedded System Design
- I. Computer Architecture and Organization
- J. Data Structures and Algorithm
- K. Relational Database Management System
- L. Software Engineering
- M. Management Information Systems
- N. Parallel and Distributed Processing
- O. Operating Systems

### 3. Control Engineering (7)

- A. Robotics
- B. Industrial Automation
- C. Digital Signal Processing
- D. Digital Control Systems
- E. Artificial Intelligence and Neural Networks
- F. Fuzzy Logic
- G. Advanced Control Systems
- H. Optimal Control
- I. Introduction to Adaptive Control
- J. Stochastic Processes & Control
- K. Discrete Structures
- L. Multivariable Control

- M. Introduction to Non-linear Control

### 4. Electronics Engineering (8)

- A. *\*Electronic Circuit Design*
- B. Micro Electronics
- C. Digital Electronics
- D. Power Electronics
- E. Industrial Automation
- F. Digital Instrumentation
- G. Opto-Electronics
- H. Computer Communication Networks
- I. Microwave Engineering
- J. Advanced Digital Design
- K. Antenna & Wave Propagation
- L. Digital Image Processing
- M. Communication Systems
- N. Radar & TV Engineering
- O. Digital Communication
- P. Mobile Communication

### 5. Power Engineering (9)

- A. *\*Electrical Power Transmission*
- B. Power Distribution and Utilization
- C. Renewable Energy Systems
- D. Power Generation
- E. Power System Analysis
- F. Electrical Machine Design & Equipment Training
- G. Power System Protection
- H. Power System Operation and Control
- I. Power Economics and Management
- J. Fundamentals of High Voltage Engineering
- K. Power Electronics
- L. Electrical Insulation Materials
- M. Electrical Estimation Installation & Planning
- N. AI Tools
- O. Fundamentals of Power System Economics
- P. Digital Signal Processing

#### Note:

- I. Choice of Electives in 6th, 7th & 8th semester will be dependent on Elective chosen in 5th semester. No student can change the specialization area after choosing any of above 5 areas in his/her 5th semester.
- II. The Elective courses offered by the Department in a semester can be changed depending on the availability of teachers and related facilities and will be notified one week before the start of the semester.

## The Department

The Department of Electronic Engineering started in 2010 with an enrollment of 50 undergraduate students per year. The department is housed in the historic building of laboratory block. Laboratory block is first building of this campus constructed in 1977. The building is recently renovated to accommodate Electronics Engineering Department. Earlier this program was being offered as a specialization of the Electrical Engineering

Program. Presently, the laboratories and same faculty of The Electrical Engineering Department is being shared, while gradually the independent facilities will be developed.

## Courses of Study

In all matters regarding courses of study and others, the department strictly follows the policies and guidelines of 'Higher Education Commission' and 'Pakistan Engineering Council'.

## The Department

Mechanical Engineering is a highly versatile and diversified engineering discipline. On one hand it is concerned with the design of machines and equipment that use energy and convert it into useful work. On the other hand it deals with the design and development of those machines that are used for manufacturing, production and process equipment.

The department offers four years degree program leading to BSc in Mechanical Engineering. At present, around 600 students in BSc, 150 students in MSc and 60 students in PhD are enrolled in the program.

## Courses of Study

The Mechanical Engineering courses are built on a strong foundation of mathematical, physical and computing sciences. Emphasis is laid on the fundamental concepts and principles, which constitute the basis of mechanical engineering practice. The curriculum is designed to cover a broad range of areas. The department offers a series of courses in the following areas:

- Thermo-Fluid Engineering
- Applied Mechanics and Design
- Manufacturing Processes Engineering
- Computer based Mechanical Engineering
- Applied Mathematics & Statistics
- Engineering Management

Courses in Thermo-Fluid Engineering include applied Thermodynamics, Refrigeration and Air Conditioning, Heat and Mass Transfer, Power Plant, Fluid Mechanics and Gas Dynamics. The department offers a wide range of courses in Applied Mechanics and Design. Starting from a basic course in Engineering Statics, a series of courses is offered in Mechanics of Materials and Mechanics of Machines. These theoretical

concepts are fostered in a series of Machine Design courses enabling the students to try their skills and design small mechanical equipment. Product design is of no use without product development studies. Manufacturing Processes Engineering deals with the smart and economical product development methodologies. Students start with Workshop Technology in this area. Successive courses in Engineering Materials, Manufacturing Processes and Production Automation provide the students further insight to this area. Additional courses like Engineering Management and Economics in senior year introduce students to the efficient management of the productive resources. Computer based mechanical engineering concepts have been embedded in various courses like Computer Programming, Machine Design, CAD and Thermo-Fluids Engineering etc.

The University has a rich industrial neighborhood. The students have the opportunity to make maximum use of this industrial environment by engaging themselves in short term as well as long term training. These industries include HIT, HMC, POF, PAF complex at Kamra, HEC, KSB, TIP, CTI, ARL, OGTI, Railway Carriage Factory, Research Establishments of PAEC, NESCOM and a large number of units in the Hattar area. The students pick real world problems either for their semester papers or as final year project from these organizations and brush their skills.

The department is offering Masters Degree program since 1983. A large number of engineering graduates have made use of this program in a variety of areas. The program involves two years of part-time study and consists of lectures, design, office work, laboratory investigation, software usage & application of computational methods and research. The emphasis is on

introducing students to modern trends and techniques and advanced knowledge in their fields of specialization. The department has adequate research facilities including licensed software, state of the art laboratories and access to published literature to meet the needs of postgraduate students to do their Masters program. The department is also offering PhD Program since 2001. By the end of year 2011 it is expected that the tally of completed PhDs from the MED would be seven and quite a few are nearing the mature stage of their research.

## Laboratories & other Facilities

The department has the following well-equipped laboratories to meet the academic requirements of students and teachers as well as the professional needs of the government and private organizations:

- a. Applied Thermodynamics
- b. Mechanics of Materials
- c. Refrigeration & Air Conditioning
- d. Fluid Mechanics and Hydraulics
- e. Heat and Mass Transfer
- f. Mechanics of Machines
- g. Power Plants
- h. Internal combustion Engines
- i. Engineering Materials
- j. Modelling and Simulation
- k. Engineering Mechanics (Static & Dynamics)
- l. Drawing Hall
- m. Stress Analysis
- n. Mechanical Vibrations
- o. Fracture Mechanics & Fatigue
- p. Renewable Energy Research & Development Center (RERDC)

The scope of research in the field of material science remains always a challenging job. The testing of materials; their analysis is always helpful for the new researcher to explore the various properties and characteristics of materials. The Fracture Mechanics & Fatigue laboratory is established in the extension block of Mechanical Engineering Department at ground floor comprising a covered area of 3500 ft<sup>2</sup>. The idea to establish this advance laboratory was to enhance the research and development activities in the field of fatigue and fracture. The laboratory is equipped with many state of art highly precise testing equipment along with related specimen preparation facility.

The laboratory is equipped with experimental facilities capable to satisfy the needs of postgraduate and undergraduate studies as well as industry R&D. Further more this laboratory is potentially able to produce internationally scaled research work in the field of fracture mechanics, fatigue of engineering materials and structures and failure analysis of engineering components and related equipments, particularly defense organizations. The present equipment can perform the following well known standard tests at different levels:

- Strain-controlled fatigue tests under axial loading
- Stress-controlled fatigue tests under axial loading
- Stroke-controlled fatigue tests under axial loading
- Fatigue tests under rotating bending moments
- Fatigue tests under combined bending & twisting moments
- Fatigue crack growth tests
- Fracture Mechanics tests ( KIC, JIC, CTOD )
- Tensile tests on specimens of different geometries

- Static bending tests
- Static torsion tests
- Notch Impact tests
- Wear fatigue tests

The fluid Mechanics lab in the department was renovated and brought up to the state of the art under the "strengthening of labs project" of HEC. A considerable sum of 36.34 million rupees was spent under the project to procure new experimental equipment in the period stretching between 2006 and 2009. The Fluid Mechanics Lab today boasts twelve state of the art experimental equipments, including sub-sonic wind tunnel, forced and free vortex generator and parallel and series pump test bed.

A Modelling and Simulation Laboratory has been established to provide facilities for 2D/3D automated drafting, C++ programming and Digital Simulation. Computer based design and optimization techniques are being employed for teaching various courses in the networking environment and considerable number of modern computers is available in the Department. The Department shares AMS Lab with Department of Industrial Engineering, which include the state of the art manufacturing facilities with CNC (M100), computer Integrated manufacturing with AGVs/ASRS and virtual prototyping models. The students can enhance their technical knowledge by using STL files directly from Pro-E and build a model in 3D using rapid prototyping System.

The department has also established a new Renewable Energy Research & Development Center (RERDC). The purpose of the RERDC is to reduce the existing deficiency in research facilities in the Pakistani universities especially in energy sector to support the Pakistani energy policy and departmental priorities for increasing the viability and deployment of renewable energy through system design and prototype development and optimization that enhance domestic benefit from renewable energy development.

## Introduction

Industrial Engineering is the branch of engineering that is concerned with the Design, Analysis, and Operation of Systems. These can range from a consumer product or single piece of equipment to large business, social, and environmental systems. Industrial Engineers determine the most effective ways to utilize the basic factors of Production People, Machines, Materials, Information, and Energy to make a product or provide a service. The Industrial Engineer's interest lies in modeling system functions and determining how best to achieve the objectives of the system. The methods employed in Industrial Engineering provide an excellent vehicle for considering both private and public costs and benefits.

Industrial Engineers by virtue of education and training have the opportunity to work in a variety of departments and businesses. The most distinctive aspect of industrial engineering is the flexibility that it offers. Whether it's shortening a rollercoaster line, streamlining an operating room, distributing products worldwide, or manufacturing superior automobiles, all share the common goal of saving money and increasing efficiencies. The need for Industrial Engineers is growing. Why? Industrial Engineers are the only engineering professionals trained as productivity and quality improvement specialists. Industrial Engineers figure out how to do things better. They engineer processes and systems that improve quality and productivity.

## The Department

Industrial Engineering with Production and Manufacturing majors was the first MSc degree program offered at the university way back in 1983. Industrial Engineering had assumed a distinctive place as sub-discipline in Mechanical Engineering Department since then. With the creation of Industrial Engineering Department, this program has been shifted to the department. MSc degree program in Industrial Engineering spans over two years and specializes in Manufacturing Systems Engineering. The department is also offering a broad-based Master's program in Engineering Management. An independent four-year program leading to

BSc degree in Industrial Engineering is being introduced with 2010-entry at the university.

## Courses of Study

The Industrial Engineering courses are built on fundamentals of Mathematical, Physical and Computing Sciences. The curriculum is designed to educate students in diverse areas of theory and practices in engineering and management domains. The following areas are specifically enriched for disseminating state-of-the-art knowledge to future builders of the nation;

- Computational Industrial Engineering
- Human Resource's Skill development
- Managerial Capabilities Inculcation
- High-tech Manufacturing Technology and Management
- Quality, Productivity and Cost Effectiveness

On the core technology side, BSc in Industrial Engineering offers students a unique opportunity to learn classical production technologies in courses like Workshop Technology, Manufacturing Processes, Metrology and Tool Engineering. The high-tech courses embed in students the capabilities to learn and acquire modern production systems in courses like CAD/CAM, Robotics, Automation and CIM.

Soft technologies encompassing Statistical Analysis, Economics Optimization and Simulation Modeling courses prepare students to design and build large and complex systems for efficiency and effectiveness. Also, strong emphasis has been ensured to inculcate managerial capabilities in industrial engineering students by including a host of courses in management electives.

Rich industrial neighbourhood around the University offers prospective industrial engineering students an ideal environment to groom their professional skills. These industries include HMC, HIT, POF, KSB, TIP, PAF complex at Kamra, BESTWAY and a host of SME's in nearby Hattar Industrial Estate.

The department has a fully functional Workshop, a large Machine Tools Laboratory and a state-of-the-art Advanced Manufacturing System (AMS) Centre equipped with CNC Machines, Rapid-Prototyping Machine, about two-dozen CAD/CAM workstations and highly sophisticated open-FMS System housing AGV/ASRS and Automated Inspection System.

## Message from Chairman

Computer Engineering has emerged tremendously in the last two decades and found position among the four most degrees awarded globally. Computer Engineers have tremendous job potential due to computing equipment utilization in almost every industry ranging from medical to aerospace. Students are advised to gain hands-on experience in their professional degree of Computer Engineering at UET Taxila. Department is equipped with state of the art laboratories to facilitate experimentation and gain hand-on experience. Technical societies are also formed to provide a suitable platform for additional learning.

## Program Objectives

- To produce Graduates who are able to practice computer engineering to serve state and regional industries, government agencies, or national and international industries.
- To produce Graduates with the necessary background and technical skills to work professionally in one or more of the following areas: computer hardware and software design, embedded systems, computer network design, system integration, electronic design automation.
- To produce Graduates for personal and professional success with awareness and commitment to their ethical and social responsibilities, both as individuals and in team environments.
- To produce Graduates who are capable of maintaining and improving their technical competence through lifelong learning, including entering and succeeding in an advanced degree program in a field such as engineering, science, or business.

## The Department

Computer engineering degree program was started in 2001 with intake of fifty students. Initially, it was setup in

the building of Electrical Engineering Department and classes were conducted in evening session only. In the mean time, construction of a separate building for department worth Rs. 40 million with funding from HEC (Higher Education Commission) was started and completed in year 2006. Building comprised of eight class rooms, twelve labs, one girl's common room, two examination halls, nearly twenty five offices and some other rooms and halls. Department has laboratories with sufficient hardware and computing facilities. Each computing lab is equipped with at least twenty five PCs and each hardware lab is equipped with fifteen workstations. All computing labs are also networked and department has wireless networked coverage as well.

Computer Engineering department also arrange different sort of events in order to encourage students to take part in those events and groom their technical as well as non technical skills. The events that we have been arranging so far are; programming exhibition (Term projects exhibition in JAVA, C# etc), Databases exhibition and annual students day.

## Laboratories

### a. Video & Image Processing Laboratory

Director: Dr. Hafiz Adnan Habib

This lab offers practical sessions for subjects: Digital Image Processing, Digital Signal Processing, Computer Vision, Machine learning and Pattern recognition.

### b. Electronic System Laboratory

Director: Dr. Syed Muhammad Anwar

This lab offers practical sessions for subjects: Electronics Circuit, Basic Electrical Engineering, Applied Electronics and Circuit Analysis.

### c. Computing Lab-I

Director: Engr. Muhammad Haroon Yousaf

This lab offers practical sessions for subjects: Computer Fundamentals, Computer Programming,

- d. **Digital Systems Lab.**  
Director: Engr. Waqar Ahmad  
This lab offers practical sessions for subjects: Digital Logic Design, Microprocessor, Computer Architecture & Embedded Systems.
- e. **Data Communication & Networking Laboratory**  
Director: Engr. Syed Sohail Ahmed  
This lab offers practical sessions for subjects: Network Security, Computer Communication & Networks and Communication systems.
- f. **Computing Lab-II**  
Director: Dr. Muhammad Majid  
This lab offers practical sessions for subjects: DBMS, Operating System and OOP.

### Technical Societies in the Department

URL: <http://web.uettaxila.edu.pk/uet/computer/techSociety.htm>

Technical societies are established in the department that serves guideline for the students to choose their profession after their degree. Students entering in first semester are given orientation about these societies so that they can later on join these societies to have technical grooming.

The major objective of these technical societies is to develop strong interaction among the scholars and faculty in their corresponding field of interests. Computer Engineering students have been divided into three categories for this reason. Scholars from undergraduate, postgraduate programs and members from the faculty will share their work with each others.

Each society is headed by specialist of respective field from the faculty. Other faculty members also coordinate. One student is also selected as student chair for each society.

URL: <http://web.uettaxila.edu.pk/uett/CPED/techSociety.htm>

a. **Taxalian Robotics and Automation Club (TRAC)**

Society Counselor: Engr. Waqar Ahmad  
Society Coordinator: Engr. Naveed Khan Baloch  
This Society is a group of people who are committed to the advancement of robotics in the university through innovation and sharing of expertise, information and experience. Society arranges seminars, workshops and conferences on Microcontrollers, FPGAs and processors. It hopes to serve as catalyst for preparing students for the competencies required by industries today and in the near future. This society also aims to organize a national level competition in the university.

b. **Signals and Image Processing**

Society Counselor: Dr. Hafiz Adnan Habib (Asso. Prof)  
Society Coordinators:

Engr. Muhammad Haroon Yousaf  
Engr. Muhammad Rizwan  
Engr. Sana Ziafat

Signal and image processing is an enabling field with diverse application areas. The society aims to play a vital role in preparing solutions locally and globally.

### Online Course Management System

All the courses which are currently being taught in all the semesters are managed online. The purpose of this online management of courses is to provide access to the students to

all the informative material regarding the subject anywhere all the time so that they can be updated.

URL: <http://web.uettaxila.edu.pk/uet/computer/courses.htm>

### Academic Cell in the Department

An Academic Cell is also working in Computer and Software Engineering Departments. All student related activities: registration, attendance records, placement of students in different industries for internship, examination, student study trips etc. are managed by this cell. This cell also coordinates with onsite interview arrangements to facilitate different employers, Like AWC, PMO, PAEC and many other. Industrial liaison and industry-academia collaboration at university level is also on the way.

### Girls Common Room

The facility of the common room is provided within the department for all the girls of the department with a seating capacity of 40. Wireless internet is also available in the girl's common room.

The events that have been arranged so far are; programming exhibition (Term projects exhibition in JAVA, C# etc), Database exhibitions, annual students day, seminars and workshops related to Software Engineering topics.

## Program Objectives

### Software Program Objectives:

Graduates of Software Engineering Program shall be able to:

- Apply proper theoretical, technical, and practical knowledge of software requirements, analysis, design, implementation, verification and validation, and documentation.
- Develop appropriate solutions to a given problem using software engineering approaches that integrate ethical, social, legal, and economic concerns.
- Design, synthesize, and analyze, software systems of increasing size and complexity at various abstraction levels i.e. from the individual component to the entire system architecture.
- An ability to define, assess, and apply software quality practices for appropriate application on software development projects in a variety of domain areas.
- Be an effective member of a multi-disciplinary software-intensive product development team.
- Able to communicate, to varied stakeholder audiences, technical concepts in a complete, concise, and correct manner in a format appropriate for the audience.
- Engage in lifelong learning of software engineering theories and technologies through graduate education, participation in professional activities, or the acquisition of new technical proficiencies, or managerial and leadership skills.

## Laboratories

### a. Software Engineering Lab

The Software Engineering Laboratory provides general purpose computing facilities to the students of Software Engineering discipline. The lab is equipped with thirty computers with latest specifications and the state of the art software tools and applications. This lab is fulfilling the requirements of courses related to software technologies, computer networks and internet technologies.

### b. Computer Graphics Lab

The purpose of this lab is to provide students a facility to conduct experiments related to Computer Graphics and visual programming courses.

### c. DOT IT Lab

This lab was solely constructed for research and development in the field of Databases, Web Engineering, Artificial Intelligence and Data mining.

### d. Elementary Computer Lab

This lab is dedicated for introductory courses including basic programming and computing. The lab is equipped with latest equipment and softwares to facilitate students.

### e. Final Year Project Lab

This lab is used by the students of final year to work on their final year project; the lab is equipped with all the necessary facilities that help the students.

## Placement Bureau & Industrial Liaison Office at Software Engineering Department

A Placement bureau has been established by the department to facilitate the placement of students in the industry. The Bureau communicates with public and private sector organizations and broadcast opportunities among the students. Interview arrangements are also made to facilitate employers.

Industrial liaison officer has been appointed at departmental level who co-ordinates the process of internships for students and hence serves the purpose of industry-university linkage.

## Societies

Societies are developed in order to bring out potential qualities of students and enhance their skills. The major objective of these societies is to develop strong interaction among the students and faculty in their corresponding field of interests. Students from undergraduate and postgraduate programs and members from the faculty share their work with each other under the umbrella of these societies.

### a. Society for Extra-Mural Activities

It has been the tradition of Software Department to arrange the Annual Student Day since 2007. Society provides the students a platform to exhibit their co-curricular and extracurricular talent. It also arranges participation of the UET Taxila (Software Engineering Department) team in debates and declamation contests held by other universities. It organizes competitions of different categories like drama, singing, gaming and technical quizzes etc.

Society Advisor: Engr. Ali Javed

### b. IT Society

This society holds the responsibility to organize software projects exhibitions/competitions, seminars, workshops on usage/awareness of different software tools and technical Talks such as career counseling. It also arranges visits to different software houses so that the students have a practical exposure.

Society Advisor: Engr. M. Fahad Khan

### c. Recreational Club

This society arranges trips to different parts of country.

Society Advisor: Engr. Mubashir Ayub

## The Department

Established in 2007, Department of Telecommunication is concerned with the theory, development and application of telecommunication systems, their design and integration. The objective of the program is to provide students with a strong theoretical and practical background in the field of telecommunication, along with the engineering analysis, design and implementation skills necessary to work between the two. The program involves study of complete telecommunication systems, technologies running on it and how these technologies can be developed. After successful completion of the Telecommunication Engineering degree, the graduates will gain a broad range of skills in the area of telecommunication with strong analytical and critical abilities. These graduates are ready to embark upon an exciting career in a diverse range of telecommunication technology-rich companies and industries. The department offers 4 years degree program of BSc in Telecommunication Engineering.

### Program Objectives

With the immense increase in the demand of telecommunication engineers, growth of global telecommunication industry, deregulation, privatization and rapid technological changes, UET Taxila established Telecommunication Engineering Department under the Faculty of Telecommunication and Information Engineering. The department aims in imparting high quality education to the students with hands on training on the latest and emerging telecommunication technologies. For their engineers to measure up to international standards, the Telecommunication Engineering Department is inducting the cutting edge technologies in the form of equipment and expertise in the form of faculty and professional training experts. This will help in achieving the University goals to produce engineers that are capable to take up any challenge in the industry and are able to perform their tasks efficiently with high precision.

The department offers undergraduate programs with the following objectives:

- Allow R&D and Professional Trainings in relevant technologies and areas including information Technology, Optical Fiber Systems, Digital Switching, Digital Subscriber Loop, Digital Radio systems, ISDN and Broadband Networks, Digital and Broadband Switching, Voice over IP, as well as Mobile and Wireless Communication Systems.
- Provide a pool of expertise for defining optimal technology paths for the evolution of telecommunication networks and services. These experts will be able to design the future telecommunication networks in our country. They also provide consultancy services to the industry.
- To provide much needed technical manpower that are well versed with the myriad of new telecommunication products being floated in the world market today.

### Program Outcomes

Upon successful completion of the Telecom Engineering program, graduate will:

- Understand and be able to apply principles of Telecom Engineering practice and process subject to realistic constraints.

- be able to analyze, document and track system requirements.
- be able to design, implement and maintain telecom systems.
- be able to verify and validate telecom systems.
- have an awareness of current industry standards and practices.
- be able to work in one or more application domains.
- understand and apply principles of team process and project management.
- be capable of independent learning.
- understand professional responsibility and the application of ethical principles.

## Laboratories

### a. Electronic System and Measurements Lab

This lab is designed to meet the practical requirements of courses related to electronic equipment such as Basic Electronics, Circuit Analysis, Digital Logic Design, Amplifiers & Oscillators, etc. The lab is equipped with oscilloscopes, function generators, variable power supplies and multi-meters.

### b. Microprocessor and Computer Architecture Lab

Experiments for the subjects like Microprocessor systems, Microcontroller and Embedded systems, are conducted in this laboratory, The lab is equipped with latest equipment and all required software used for simulation purposes.

### c. Antenna and RF Lab

This lab is developed for the experiments of subjects like Wave Propagation and Antenna, RF, Microwave Engineering, etc.

### d. Computing Labs

Two computing labs have been developed to conduct the practical work for various subjects like Introduction to Computing, Object Oriented Programming, Numerical Methods, etc. These labs are equipped with all necessary hardware and software facilities. All machines are provided with internet connectivity.

### e. Telecommunication Engineering Lab

The purpose of this lab is to conduct the practical work on the subjects like Digital Communication, Computer Communication Networks, Transmission and Switching Systems, Mobile and Wireless Communication, etc. This lab is equipped with all necessary hardware and software facility.

### f. Final Year Project Lab

This lab is developed for final year students for the purpose of development and completion of their final year degree projects.

### g. Wireless/Wired Internet Facility

The students and faculty are provided with wireless internet access which encompasses most parts of the department. In addition, wired internet facility is also provided in every laboratory.

## The Department

The department was established in 1975 as a part of the University College of Engineering, Taxila and is as old as the institution itself. With the inception as an independent University in October, 1993, the department has been placed under the Faculty of Basic Sciences and Humanities.

The department offers courses in Mathematics, Physics, Chemistry, Economics, Statistics, Islamic Studies, Pakistan Studies, Ethics and English. Mathematics is an essential pre-requisite and pivotal element for various fields of engineering and other sciences. In fact it plays a key-role for the comprehension of any subject of engineering and physical sciences. A practical engineer needs an adequate knowledge of modern mathematics to successfully cope with the complex real world problems. Therefore, all the degree programs offered by different engineering departments of the university have courses in applied mathematics, statistics and numerical analysis.

The courses offered in the subjects of Applied Physics and Chemistry are very essential for forming the base of the engineering subjects. Also the essential practical work in these subjects is carried out as a support to the immense forthcoming engineering practical work. The curricula of Physics and Chemistry including the recent development are constituted so as to meet the pre-requisites of the engineering subjects. The contents of the courses are regularly revised so as to keep abreast of the fast progress occurring in the various engineering faculties.

Appropriate courses in Islamic Studies have also been constituted to be taught to the Muslim students of all engineering faculties. The purpose is to enlighten the soul

and mind of the students and enable them to get appraisal of tenets of Islam so that they may perform their duties with integrity and diligence when the future responsibilities of serving the nation will be bestowed upon them.

In 1982 the Government of Pakistan also emphasized the need to teach the subject of Pakistan Studies to all students at degree level. The main purpose of this subject is to make the students to be acquainted with ideology of Pakistan. The Non-Muslims students are offered courses in the subject of Ethics as well.

It is an established fact that English is an international language, so proficiency in English language is required to compete with the modern world. Different courses are offered in different departments to enhance student's English language skills for professional purposes. Effective communication skills include everything from facial expression to visual literacy, from anxiety management to verbal skills, from body language to document presentation. Students can become more effective communicators by cultivating competency through these courses. These courses include Technical Report Writing as well which enhances students to write well in professional life.

In future language lab will be established in the department so that students could practice listening and speaking skills. This project of language lab will be helpful to provide students an environment where they can practice language. Along with language lab, the department is planning to start spoken English courses in summers, especially IELTS and TOFEL for University students who want to go abroad for higher studies.

## Research Extension and Advisory Services

The faculty members are actively engaged in research work and have produced a number of research publications, which have been published in scientific journals of repute and presented in national and international conferences and seminars. The current research fields of interest in the subject of mathematics are: mathematics in manufacturing, algebraic optimization, numerical analysis, integral equations, linear

programming, queuing theory and quantum mechanics.

The research field interests in the subject of Physics are; Safety and Reliability of Nuclear Industry, Nano Physics, Study Material Properties with X-ray Diffractometer (XRD), Optical Spectrometer and LCR Meter.

The research in the subject of Islamic Studies is being carried out in the field of "Seerat-un-Nabi and Political System of Islam". Islamic Banking & Finance and Interest Free Islamic Economic System.

# *Services and Common Facilities*

## MAIN LIBRARY

The Central Library of the University plays a vital role in dissemination of knowledge, teaching, research, and extension services. It has a seating capacity for about 250 readers at its different halls, which provide congenial conditions for study. The library remains open in 2 shifts from 8:00 am to 9:00 pm on all working days with usual break. The Library is stocked with encyclopedias, dictionaries, handbooks, standard specifications, yearbooks, almanacs, abstracts, indexes and a big reference collection of text and general technical books.

## Stocks and Services

The Library has more than 51000 volumes of books and scattered issues of scientific and technical serials on diverse fields. Besides engineering subjects considerable reading material on humanities, social sciences and Islamic Studies is available.

The members can borrow books and other materials, (except serials, reference or reserved books) for specific periods. They can also reserve materials, which are out in circulation. For this, reservation cards are to be handed over at the circulation counter.

## Book Bank

The Library houses a Book Bank, which lends textbooks to the undergraduate students. Every user can have text books from this section.

## DIGITAL LIBRARY

### Mission

To meet the information requirements of students and researchers of UET Taxila, Pakistan with the provision of quality scholarly information based electronic delivery Through Pakistan Educational Research Network (PERN). HEC has given the online access of journals and research papers to UET Taxila. Access to all these resources is free of cost from the UET Taxila intranet for students and researchers of UET Taxila.

### Objectives

- To provide students/researchers in the university and eligible R&D organization with access to high quality journals, academic databases and articles across the widest range of disciplines.
- To address the specific information needs of the sector with the delivery of content relevant to national development objectives.
- To support the delivery of information and effective use of Information and Communication Technologies (ICTs) with extensive training for users with the library university and research community in Pakistan.
- To work with international organizations to enhance the scope of available content and implement

revolutionary technologies for the delivery of content.

- To provide increased dissemination opportunities and promote the use and visibility of locally produced research information.

## CURRENTLY AVAILABLE RESOURCES

### American Association of Physics Teachers

Two AAPT publications provide up to date physics knowledge, at a level comprehensible for many users. AAPT publications assist in the learning of new and traditional teaching methodologies and the use of modern technology in Physics.

### American Institute of Physics

It provides access to the full-collection of highly-rated of 11 Journals and conference proceedings Covers developments in Physics, Industrial Applications (Applied Physics), and advances in Scientific Computing.

### American Physical Society

APS provides access to 9 prestigious research publications Includes the five-specialist Physical Review Publications, and the PROLA archive.

### American Society of Civil Engineering

The ASCE Research Library provides access to more than 18,500 full-text papers from ASCE Journals and Proceedings.

### American Society of Mechanical Engineering

ASME provides online access to 19 highly rated journals. Content related to the art, science and practice of Mechanical and Multidisciplinary Engineering and Allied Sciences.

### Association of Computing Machinery

The ACM contains full-text from 28 ACM Journals and Transactions, 10 ACM Magazines, over 40 ACM Special Interest Newsletters, 15 non-ACM journal and publications and over 100 annual conference proceedings. Content strengths include all areas of Information Technology, with full archival content for all ACM publications.

### EBRARY

EBRARY offers a wide variety of multidisciplinary content. It acquires large number of titles from leading academic publishers.

### Subject Collection

- Computers and Information Technology
- Engineering and Technology
- Life & Physical Sciences

### Elsevier (Science Direct)

Science Direct is the world's leading electronic collection of scientific journals. It is renowned for the high-quality of its

content in all branches of science, technology and medicine.

## Subscribed Subject Areas

- Energy
- Engineering
- Computer Science
- Materials Science

## ESDU - Engineering Solutions for Academia

ESDU collection is based on industry standard tools and software as part of teaching and research projects. ESDU provide validated design guides, introductions, methods, data and software used in Industry and suitable for simple, rapid inclusion in these engineering programs

- Aerospace Engineering
- Civil Engineering
- Chemical Engineering
- Material Science
- Mechanical Engineering
- Process Engineering
- Structural Engineering

## Institute of Electrical & Electronics Engineers (IEEE)

It provides access to almost a third of the world's current Electrical Engineering and Computer Science literature. IEL provides full-text access to 132 IEEE and 45 IEE journals, magazines, transactions and conference proceedings as well as active IEEE standards.

## Journal of the Acoustical Society of America (Jasa)

Since 1929 the Journal of the Acoustical Society of America has been the leading source of theoretical and experimental research results in the broad interdisciplinary subject of sound. The Journal serves physical scientists, life scientists, engineers, psychologists, physiologists, architects, musicians, and speech communication specialists.

## Optical Society of America

Access to 8 peer-reviewed journals that set the publications standard for advanced optics research within each major sector of the field. OSA journals cover the full spectrum of optics research, including the fields of Physics, Materials Research, Atmospheric Studies, Visual Psychology, Biomedical Optics, Physiology, and Ophthalmology, as well as Mechanical, Computer, Electrical and Optical Engineering.

## Project Muse

Project MUSE provides access to 430 full-text journals from 108 publishers in humanities and social science. MUSE pricing meets library needs around the world.

## Science Online

It provides access to the full text of the prestigious Science publication. It allows users to search within Science and across a multitude of scientific journals. It also provided to selected public-sector universities in Pakistan on the basis of identified research requirements.

## Springerlink

SpringerLink provides access to 503 full-text Springer-Verlag Journals and 738 full-text journals formerly published by Kluwer Academic Publishing. One of the world's leading information services for Science, Technical and Medical journals.

## Taylor & Francis Journals

Taylor & Francis have grown rapidly over the last two decades to become a leading international academic publisher, more than 1000 journal titles in a full range of disciplines.

## Wiley-Blackwell Journals

Since the Blackwell-Synergy merger with Wiley-Interscience, all the journals available to HEC consortium are now available through Wiley-Interscience, online database containing over 1,234 journals in science, technology, medicine, humanities and social sciences.

## Library Automation System (LIBAS)

Library Automation System (LIBAS) is a one-stop information solution. It is managed, maintained and organized by University Library Professionals and IT experts. LIBAS has improved the quality, speed and effectiveness of services like providing access to remote users and Resource-sharing among other library networks. It has also improved the management of physical and financial resources.

The important modules are:

- Acquisition
- Cataloguing
- Circulation
- Serial Control
- Administration
- OPAC (Online Public Access Catalog)

# INFORMATION TECHNOLOGY CENTRE 8

There has been a major interest in Educational Computing since 1985 when a DEC's VAX-11/730 was installed with six terminals, one line printer and one dot matrix printer at the Data Processing Center. Later in 1989, a Micro-VAX-3100 was procured and with its 20 interactive terminals. High pace changes and alterations in trends, hardware and software, introduction of new and user friendly operating system & environments, built-in packages and world wide communication led the centre to switch over from the outdated VAX to personal computers LAN and WAN. The centre is, thus, equipped with 50 personal computers. The IT Centre is providing services to all the departments of the university.

The main objectives of the centre are:

- To train the students at undergraduate level to develop the programming skills.
- To provide research facilities to the post-graduate students of all the departments of the university.
- To provide advisory services to the teachers and research scholars of the university.
- To computerize different procedures of the university's administrative departments.
- To provide training to the engineers/officials of the surrounding industrial organizations.

The students are given extensive "Hands on" training on the mini-computers, which enhances their experience of working in an on-line environment. Short courses in various programming languages and application packages are also offered in the evening time. The center is committed for the promotion of Information Technology and its facilities are being upgraded according to the developments in this field.

## Video Conferencing Facility

Video conferencing facility in Information Technology Centre is available in accreditation with HEC. This facility is used to bring people at different sites together for a meeting. This can be as simple as a conversation between two people in private offices (point-to-point) or involve several sites (multi-point) with more than one person in Videoconferencing Hall at different sites. Besides the audio and visual transmission of meeting activities, videoconferencing can be used to share documents, computer-displayed information, and whiteboards.

## Mission

### NARC Research Facilities

Network Administration and Research Center (NARC) was founded to provide better support and services to the University. NARC is an outcome of University Computerization and Network Enhancement Program (UCNEP) project. Under UCNEP project, state of the art equipment was procured and latest technology was introduced to enhance the quality of communication infrastructure, existing Lab facilities and processes of the University.

NARC is responsible for design and development of networking infrastructure within University campus and sub campuses. It also provides 24 hour internet facilities for the university. Wireless hotspots are available in campus of the of the university to use internet and Intranet services for students and researchers.

NARC staff comprises of highly skilled, well qualified and technically competent workers who perform their tasks as a passion of their life.

NARC is not only limited to provide services to the University and its sub campuses, it also helps in providing technical assistance to other projects of national interest. NARC staff is actively involved in providing consultancy services to other universities and educational institutes, thus contributing towards the development of IT infrastructure of Pakistan.

NARC provides 24 hours research facilities to PhD scholars and researchers. All facilities provided by NARC are available round the clock. This includes Digital Library which provides free access to research papers and technical material from leading international forums and organizations around the world. It also provides High Performance Computing (HPC) facilities for students and researchers.

Necessary equipment required to complete the students in their semester and final year projects is provided free of cost to the students. Moreover technical guidance is also provided to them. NARC hosted the 17th International Conference on Microelectronics (ICM'05) held in December 2005 and ICOCN-07(International Conference on Optical Communication and Networks)

NARC is currently providing support in the following areas:

- Wireless Adhoc Networks
- Wireless Mesh Networks
- Network Routing
- Network Simulation
- Stateful inspection Firewalls
- Optical Fiber
- Secure VoIP communication
- Clusters and Grid Computing
- WiFi
- Blade Server
- Students Email Service using Google Apps
- Central Storage System for Faculty and Students
- Online Course Management System

NARC is working in collaboration with national and international technological leaders to provide state of the art equipment and cutting edge technology to the University. NARC is also working as Cisco Local academy for CCNA & IT Essential certification courses.

The Directorate of ASR&TD, which functions under the supervision of the Director, is the secretariat of the Board of Advanced Studies, Research and Technological Development. The Board comprises the Vice-Chancellor (Chairman), all the Pro-Vice-Chancellors, all the Deans, one University Professor from each faculty, one technologist, five members from the Industries and the Director of ASR&TD.

The Directorate performs a variety of functions to promote research, extension and advisory services in the University. The purpose of these functions is to:

- a. Regulate MSc and PhD programs.
- b. Provide funds and monitor faculty research.
- c. Provide funds for M.Sc. Engg. and PhD research.
- d. Approve thesis titles, supervisors and examiners.
- e. Co-ordinate the Split PhD program with foreign Universities, Government of Pakistan.
- f. Arrange visits of Pakistani Experts to give Workshops/Seminars in their field of expertise under TOKTEN program.
- g. Arrange visits of foreign Professors to the University and vice-versa.
- h. Award of Research Assistant-ships.
- i. Sponsor collaborative research work in engineering and allied disciplines at the University and promote the research work.
- j. Assist the Departments in organizing Post-graduate Programs, extension lectures and seminars.
- k. Coordinate advisory services of the University for the benefit of the Government departments and industries.
- l. Arrange evaluation of Research publications of faculty members and publishing of Research Journal of the University.
- m. Make arrangements for Extension Lectures of Senior Professors from foreign countries, under the proposed British Council Specialists visits to Pakistan and TOKTEN Schemes.
- n. Arrange for PhD Programs in the University.
- o. Regulate an endowment fund for Higher Education and R&D in IT & Telecom Division at University of Engineering & Technology, Taxila, created for an amount of Rs. 100 million. The main objective for the establishment of endowment fund is to provide a continuous service of funding the University for producing around four PhD and six MSc in the field of Signal Processing every year. Fund would be available for man power development in the following fields:
  - (1) Computer/Data communication
  - (2) Image Processing
  - (3) Simulation and Modelling
  - (4) Wireless communication

## DIRECTORATE OF STUDENTS AFFAIRS 11

The primary function of the directorate is to organize extra-curricular activities of the students and to foster their intellectual, literary, and artistic potentialities, which remain untapped in the classroom. It functions normally through a large number of clubs and societies; each devoted to some sport or cultural and artistic activity. The students join these clubs and societies according to their inclinations and aptitudes. Another function of the directorate is to maintain liaison with a wide cross-section of students and to be responsive to their needs and problems. The directorate also works to promote, amongst students, respect for the dignified and disciplined behaviors befitting a university student and prospective member of the honored community of engineers of Pakistan. Following are the committees and societies functioning at UET-Taxila.

Quaid-e-Azam Debating Society  
 University Arts and Literary Society  
 Hostels Athletics and Sports Club  
 An-Nisa Girls Scholar Society  
 UET Adventure Club  
 Environmental Protection Society  
 Student Welfare Society  
 Disaster and Crisis Management Cell  
 Student Counselling/Guidance Bureau  
 Students Placement and Training Bureau  
 Rashid Cheema Blood Donors Society  
 Al Mohandis University Magazine, Varsity News and University Quarter Bulletin  
 Department Technical Societies  
 Students Chapters  
 Price and Quality Control Committee

## DIRECTORATE OF UNDERGRADUATE STUDIES 12

The primary function of the directorate is to plan and organize undergraduate teaching and notify schedule for each academic session. The directorate coordinates academic activities of the departments and acts as liaison office between the academic departments for the smooth conduct of courses. It also monitors the teaching progress and ensures the timely completion of courses by the respective department.

The Directorate also assists the Students Section to the following matters.

- Registration of fresh entrants
- Scholarships and Stipends
- Migration Cases
- Verification of Documents

## DIRECTORATE OF SPORTS 13

The University provides ample facilities to the students for participation in games and sports, both outdoors and indoors.

A Sports Committee comprising University teachers supervises the sports activities. Facilities are provided for all the major sports including cricket, hockey, football, tennis, badminton, basketball, squash and athletics. A series of inter-faculty and inter-hostel tournaments are held to provide participation to the maximum number of students. Outstanding sportsmen are encouraged to take part in the inter-university tournaments. The outstanding players are also participating in National level events likely hockey, volleyball and athletics. The exercise facilities are provided in the Gym in early morning and in the evening. Major types of fitness and exercise machines are available in the university.

## FINANCIAL ASSISTANCE 14

The University has constituted a Students Welfare Society (SWS) to provide financial assistance to the most deserving students to defray tuition fee and hostel dues from the following financial resources:-

- Donations
- Fund raising campaign.
- Earning from Endowment Fund established for the purpose with an amount of Rs.5.000 Million.

The concerned students will apply on the prescribed form obtained from the office of Director Students Affairs.

## HALLS OF RESIDENCES 15

The University has limited provisions for hostel accommodation at the Campus for both male and female students. The halls of residence for male students have an accommodation for about 1350 students and are named as:

- Iqbal Hall
- Quaid-e-Azam Hall
- Abu Bakar Hall
- Umer Hall
- Usman Hall
- Ali Hall

Abu Bakar hall with accommodation for 400 students is under completion. A separate hall for international students is being planned to be constructed in near future.

The hall of residence for female students is named as **Ayesha Hall**. It has an accommodation for 200 students.

The management of the halls is supervised by the Senior Warden. Each hall is looked after by Resident Tutor/s being faculty members.

The students themselves manage many aspects of life in the halls. The halls are provided with common rooms, dining halls, canteens, mosques and other such places of common utility. Each hall has its own mess with adequate messing and dining facilities. The mess is run on a no-profit no-loss basis. A Students Mess Committee under the supervision of a Resident Tutor regulates the weekly menu, finances, billing and quality of the food.

The students are required to abide by the rules and regulations governing residence in the University halls and are encouraged to develop community life conducive to healthy growth of the social aspects of their personalities.

## Internet Facilities in the Hostels

The University has 16 Mbps internet bandwidth from PERN (Pakistan Educational Research Network) and provides high speed internet connectivity to all resident students in the hostels.

All the rooms of Iqbal Hall are connected with LAN of the University through five switches deployed at RT Room. These switches are connected to the Network Administration and Research Center (NARC) through optical fiber connectivity. The resident students are allowed to use LAN facilities in their rooms to make their assignments and other research work assigned to them.

Quaid-e-Azam Hall is also connected through optical fiber with NARC, while the other hostels are connected through UTP cables. The students are provided with Wireless Connectivity in these hostels.

## Extra Curricular Activities in the Hostels

Besides providing adequate residential and messing facilities in the hostels, due consideration is also given to encourage the resident students to engage themselves in healthy physical and character building social activities.

For the purpose, various societies and clubs have been formed in the hostels. The functioning of these societies and clubs is monitored and supervised by the Senior Warden and are supported with financial assistance to promote sports and social activities in the hostels.

The most important societies and clubs functioning in the hostels are briefly described as under:-

## Hostels Arts & Literary Society (HALS)

Being one of the most active and widely recognized society in the campus, it has added colors to the campus life.

The main objective of the society is to promote art, culture and literary abilities of the resident students and to boost up their confidence to perform in front of the people.

The society arranges and organizes:

- Qirrat and Naat competitions
- Dramatic and Cultural Shows
- Singing Competitions
- Sketching and Poster Competitions
- Declamation Contests, Debates and Discussions
- Quiz Competitions
- Story and Essay Writing
- Mehfil-e-Mushaira, Bait Bazi Sessions and such other activities

## Hostels Athletics & Sports Club (HASC)

The Hostels Athletics & Sports Club has been formed to arrange and organize the sports activities for resident students in a proper and orderly manner.

The ultimate aim of the club is to produce the best athletes and sportsmen with good sportsman spirit for the University and for participation in the inter university tournaments. For this purpose, the club organizes friendly matches and competitions amongst the resident students throughout the year.

## UET Adventure Club (UETAC)

The idea for having an adventure club is to provide an opportunity to the students to escape from the daily routine of the busy campus life and be able to enjoy the wilderness and natural resources of the mother land's nature.

The main objective of the adventure club is to organize and promote hiking, mountaineering, jogging, boating, excursion trips and other related activities.

Efforts will be made to affiliate the club with the Adventure Foundation of Pakistan and the Alpine Club of Pakistan. First Aid Training will also be arranged for the members of the Adventure Club.

### ESTATE OFFICE

16

The University Campus spreads over 163 acres of land, and requires considerable efforts to keep the gardens, lawns, roadside rows of trees and flower-beds in good trim. The efforts of this office give the Campus a pleasing look, which attracts a large number of visitors in the mornings and evenings.

For the convenience of the students, a shopping centre is located near the University hostels. This centre has a laundry, a general store, stationery and fruit shop. The office looks after security, sanitation, maintenance of lawns and gardens, and shopping facilities at the campus. It has a large squad of uniformed watchmen who guard the University buildings and property. Its sanitation staff keeps the buildings, roads, lawns, and other spaces clean and tidy.

### HEALTH FACILITIES

- e. Boarders will be required to fill in the proforma of previous medical history mentioning the disease he carries.
  - f. Indoor treatment from unauthorized medical attendants is not allowed.

## TRANSPORT

# 18

Adequate transport facility is provided for students and the buses are plying between Rawalpindi, Islamabad, Hassan Abdal, Wah Cantt. and the campus. This facility is, however, not obligation of the University and it can be reduced or terminated if the policy and/or the financial conditions so demand.

## ADMISSION/REGISTRATION/ PLACEMENT OFFICE

# 19

The Section deals with matters relating to admission, registration and placement of students at undergraduate level and verification of documents, migration cases and miscellaneous certificates under the charge of Registrar.

## DUES/SCHOLARSHIP SECTION

# 20

The Section deals with all kinds of fees/dues, scholarship, stipends, loans and fee concession under the charge of Treasurer.

  - xii. Any other discipline as and when approved by the University Authorities

- e. **Academic Calendar:**  
The Bachelor's Degree Programme shall be spread over four academic years (i.e. minimum Eight Regular Semesters). Each academic year shall consist of two regular teaching semesters i.e.; Fall and Spring and an optional Summer semester. Summer semester shall be primarily for those students who want to repeat / improve certain courses to make up for their academic deficiencies

In case of regular semesters (i.e. Fall and Spring) there shall be sixteen weeks of teaching. End Semester Examination shall be held in the eighteenth and nineteenth weeks. While in case of Summer semester, ninth week shall be for End Semester Examination. The Director Academics shall notify academic schedule of complete year for its fall, spring and summer semesters for the convenience of students and faculty members mentioning the following:

- i. Semester registration date
- ii. Semester starting date
- iii. Mid semester examination week
- iv. Semester termination date
- v. End semester examination weeks

Students shall be responsible to meet the requirements and deadline published for each semester in the academic calendar. Students shall also be expected to know and adhere to the rules, regulations, course loads and policies of the university as well as those of the departments in which they are enrolled.

## Part-I. GENERAL

- a. The minimum duration of the degree programme shall be four academic years (i.e. Eight Regular Semesters). While the maximum duration allowed is seven years.
- b. Notwithstanding anything to the contrary contained in these regulations, no candidate shall be admitted to an examination after the expiry of seven academic years. This period shall be counted from the date of his registration to the first semester in the University. Provided that in case a candidate is admitted directly to a higher class, he shall not be admitted to an examination after the expiry of the

remaining period for the session to which he is admitted.

- c. The total number of credit hours required for the award of degree shall be 130-136 while the number of credit hours per semester shall be 15-18. The courses of study, the credit hours allocated to each subject, the total credit hours offered in a semester and the detailed syllabi shall be as approved by the competent authority.
- d. A minimum CGPA of 2.0 for the total semesters of a degree programme shall be required for the award of degree. The student affected by this regulation shall have the option to repeat the courses in which his grade is less than C- within the maximum allowable time period.
- e. An academically deficient regular student shall be allowed to repeat / improve the courses during the summer semester if offered as well as during the regular semesters whenever the teaching and examination schedule makes it possible for him to register himself for the courses and to take the end semester examination. While the academically deficient casual student shall be allowed to repeat/improve the courses either during summer semester or whenever the teaching and examination schedule makes it possible for him to register himself for the courses and to take the End Semester Examination. In case of repetition/ improvement of a course the student shall have to pay course registration and examination fee as prescribed by the University. It shall be noted that a student can only improve a grade lower than C- (i.e. D & F).
- f. An academically deficient student (i.e. Regular and Casual) shall be allowed to get himself registered for two courses at maximum irrespective of the credit hours in a summer semester. The contact hours during the summer semester shall be doubled to ensure that the course is completely taught in a summer semester with half of the duration compared to a regular (Fall or Spring) Semester. An academically deficient regular student will also be allowed to get himself registered for two additional courses at maximum with lower semesters if offered with his regular semester. Whereas an academically deficient casual student will also be allowed to get himself registered for five courses at maximum with lower semesters if offered in regular semesters.
- g. The registration, attendance, conduct of examination and result display policies etc. during the summer semester shall be followed as that in case of regular semester. Letter grade awarded during summer semester shall not be more than a 'B' grade.
- h. The medium of instructions and examinations shall be English for all subjects except Islamic Studies and Pakistan Studies for which the medium of instructions and examinations shall be either Urdu or English.

## Part-II. SEMESTER REGISTRATION

The registration of the students for each semester other than the first semester shall be made by the concerned Academic Department of the University. The registration

for the first semester shall be made by the Registrar of the University.

- a. The registration of the students for each semester shall be made in accordance with the Academic Calendar notified by the Director Academics. The application forms shall be obtained from the office of the Chairman of the concerned Department. The students shall submit the forms duly filled up to the Chairman of the Department. After necessary verifications, the Chairman of the Department will notify the list of registered students within ten days of the start of regular semester and four days of the start of summer semester. He will also forward these lists to all concerned within a week.
- b. In case of a regular semester if a student misses his registration for cogent reasons, and applies for it within ten days of the notification of the list of registered students, he may be allowed to get himself registered with his class by the Dean of the Faculty concerned. He will, however, be required to pay re-admission fee as prescribed under the rules. He shall not claim any other relaxation in the rules governing teaching and examinations.
- c. If a student fails to get himself registered for a regular semester within the prescribed time, his name shall be deemed to have been struck off the University Rolls and he shall not be allowed to take the classes and appear in any examination.

### Part-III.

## ATTENDANCE REQUIREMENTS

No candidate shall be eligible to appear in an End Semester Examination unless the following conditions are fulfilled:

- a. He has been on the rolls of the University during the semester for which the examination is being held, unless allowed by the regulations to take examination in order to repeat/improve a course.
- b. He is not debarred from taking the examination under the University rules and regulations in-force for the time being.
- c. He has attended a minimum of 75% of the total number of lectures delivered, the laboratory periods held, design and practical work done in a course during the Semester for which the exams is being held. The Dean of the concerned faculty may, for valid reasons, condone this deficiency upto 10% on the recommendations of the Chairman of the department in consultation with the course teacher concerned.
- d. If a student does not fulfill the condition of attendance, he shall be awarded an F-grade in that course and will have to re-register for that course in the summer semester if offered or in a regular semester in which the course is being offered.
- e. The course teacher concerned will prepare the attendance record and will display and forward the list of such candidates who do not fulfill the condition of attendance to the Controller of Examinations through the Chairman of the Department and Deans Committee immediately after the completion of the teaching session. Such candidates shall not be allowed to appear in the end

semester examination of that course.

- f. At the end of each month, the teacher concerned shall send to Chairman of the Department, a statement giving the total number of lectures delivered and practical conducted by him together with the number of lectures and practical attended by each student.

### Part-IV.

## CONDUCT OF EXAMINATION

### 1. Students Evaluation System

The performance of every student shall be continuously monitored and assessed throughout the semester. During the semester a student's performance shall be evaluated by taking quizzes, assignments, mid semester examination, laboratory reports, and project presentations etc. An end semester examination shall also be taken at the end of each semester covering the entire syllabus. The course teacher shall be responsible for the evaluation of work/performance of the students of his class and for the award of grades to them on the basis of such evaluation.

### 2. Grading Mechanism

Course grades shall be awarded to the students preferably based on their relative performance in the course with minimum student's strength more than ten(10). Grading shall be usually carried out on the basis of normal distribution curve using statistical methods with preferably B as the class average, however, the course teacher's decision in this regard shall be considered final. Grades shall be indicated by letters. There shall be 4-letter grades i.e. A, B, C & D for individual courses with 9 performance levels e.g;

Letter Grades	Performance Levels
2 As	A & A-
3 Bs	B+, B & B-
3 Cs	C+, C & C-
1 D	Simple D
F	Fail
I	Incomplete

The grade points assigned to the letter grades shall be indicated as under:

Letter Grade	Grade Points
A	4.00
A-	3.70
B+	3.30
B	3.00
B-	2.70
C+	2.30
C	2.00
C-	1.70
D	1.00
F	0.00

The following guideline for the award of Letter Grades can be followed by the course teachers in case of absolute grading and project evaluation etc.

Marks (%age)	Letter Grade
90-100	A
85-89	A-
80-84	B+
75-79	B
70-74	B-
65-69	C+
60-64	C
55-59	C-
50-54	D
<50	F

### 3. Semester Grade Point Average (SGPA)

The semester grade point average (SGPA) shall be calculated by multiplying the grade points earned in a course with the number of credit hours of that course, taking the sum of such products for each course taken in that semester and finally dividing the result by the total number of credit hours attempted in that semester.

### 4. Cumulative Grade Point Average (CGPA)

The cumulative GPA (CGPA) shall be calculated similarly (as that for SGPA) for all the courses taken in all the semesters of the degree programme.

### 5. Evaluation Components

#### a. Sessional Awards:

- (i) **Quizzes:** There shall be an appropriate number of unannounced quizzes per course in a semester.
- (ii) **Mid Semester Examination:** There shall be one mid semester examination of 1.5 to 2.0 hours duration per course in a semester after eighth week of teaching in case of regular semester and after fourth week in case of optional semester.
- (iii) **Home Assignments / Mini Projects:** There shall be an appropriate number of Home Assignments and / or Mini Projects per course in a semester.
- (iv) **Laboratory Reports:** The students shall submit laboratory reports on each laboratory practical held, which the course teacher will evaluate. In this case each experiment, design, drawing, project or assignment shall be considered an examination.

#### b. End-Semester Examination

There shall be one End-Semester Examination of 2.00 to 3.00 hours duration covering the entire course at the end of each semester. The examination shall be held in the last two weeks of each regular semester and last one week of Summer Semester.

### 6. Weightage of Evaluation Components

The final grade shall depend on the marks obtained in each of the evaluation components listed above. The weightage given to each component is as follows:

Evaluation Component	Weightage
Unannounced Quizzes	10%
Mid Semester Examination	20%
Home Assignments / Mini Projects	10%
Laboratory Reports	20%
End-Semester Examination	40%

In case of courses not having any laboratory / practical work, the weightage of End Semester Examination shall be 60%. While in case of courses having only laboratory / practical work, the weightage of laboratory reports shall be 100%.

### 7. Choice in Question Papers

There shall be no choice of questions in any of the evaluation components.

### 8. Absence from Examination

Absentees in any of the evaluation components shall be awarded zero marks whereas the absentee of end semester examination shall be awarded an F grade irrespective of sessional marks.

### 9. Maintenance and Display of Sessional Awards

- a. The marked scripts of each examination component except that of end semester examination shall be shown to the students by the concerned teachers. In case a student is not satisfied with his awards and/or clarification from the teacher concerned, he may make written complaint to the Chairman of the Department who will refer his case to the Departmental Semester Committee. The decision of the Committee shall be final.
- b. A student who fails to take his Mid Semester Examination due to some unavoidable circumstances (beyond his control) shall apply in writing to the Chairman for retaking mid semester examination before the End Semester Examination. The Chairman will refer his case to the Departmental Semester Committee for consideration and decision. The decision shall be communicated to the Controller of Examinations in writing. In case a student is allowed to retake Mid Semester Examination, the examination will be conducted by the course teacher before the End Semester Examination on payment of prescribed fee by the student.
- c. The teacher concerned shall prepare four copies of the sessional awards. He shall retain one copy with him; shall send one copy each to the Chairman of the Department concerned and the Controller of Examinations immediately after the completion of the teaching session. He shall also display a copy of the sessional awards on the Notice Board before the start of end semester examination.

## 10. Place and Conduct of Examination

Each Mid and End Semester Examination shall be arranged/ conducted by the Controller of Examinations at the respective campuses of the University.

## 11. Date Sheet

The Controller of Examinations shall issue the date sheet for each mid and end semester examination. Mid Semester examination shall be held on consecutive days excluding holidays which means that no gap shall be allowed between the two papers. While the End Semester examination shall be held on alternate days.

## 12. Paper Setting and Marking of Scripts for End Semester Examination

The course teacher(s) shall be responsible to set the question paper covering the entire syllabus, mark the answer scripts and prepare the award lists.

- a. The course teacher after setting the question paper shall get it photo copied by himself in accordance with the number of students and deliver it to the Centre Superintendent on the date of examination as per date sheet.
- b. On receipt of Answer Scripts from the Centre Superintendent on the same day, the course teacher shall mark the scripts for each examination and prepare the award lists on the prescribed form. After the end semester examination, he shall send the award lists (hard and soft copies) along with the marked scripts and question papers of Mid and End Semester examinations to the Controller of Examinations under sealed cover within the specified time limit.
- c. The course teacher(s) shall be responsible to ensure that there is no discrepancy in the marks entered in the award lists, the marks entered on the cover page of the scripts and the marks awarded to the questions in the scripts. A fraction of half or more shall be counted as one mark and less than half ignored in grand total only.
- d. The time limit for marking the scripts shall be ten (10) days. If a teacher cannot mark the scripts within the prescribed time limit due to unavoidable circumstances, he may obtain prior permission from the Controller of Examinations for extension of time before the expiry of the prescribed time limit. The extension in time limit shall, however, not be more than four days.
- e. A deduction of Rs. 50/- per day will be liable to be made from the remuneration of the examiners for delayed submission of results after the prescribed time limit.

## 13. Final Year Project

In the final year, students shall be required to do a project which is assigned six credit hours, two credits in the seventh semester and four credits in the eighth semester. A list of available projects shall be notified by the concerned department at the start of the academic year. Students shall be required to consult their faculty advisors for the selection of a project. Students shall be required to complete their projects and present their reports (in hard-bounded form)

before the end semester examination of their eighth semester. A three members committee including the project supervisor nominated by the Chairman of the Department and approved by the Vice-Chancellor shall evaluate these projects at the end of eighth semester. The eighth semester project evaluation shall be held after the examination weeks and shall be followed by an open presentation

## 14. Summer Internship

Every student shall be required to participate in an eight weeks practical training programme during the summer of their second or third year and submit a formal report to the Chairman of the Department.

## 15. Final Award

The final award once received by the office of the Controller of Examinations shall not be liable to a subsequent change except with the permission of the Vice-Chancellor.

## 16. Notification of Result

As soon as possible after the completion of the examination, the Controller of Examinations shall notify the result.

## 17. Re-Checking of Answer Scripts

There shall be no re-evaluation of answer scripts of the end semester examination. However, a candidate shall be allowed to have his answer scripts rechecked by the Controller of Examinations on payment of prescribed fee within fifteen days of the declaration of the result. The Dean of the Faculty concerned may condone the delay up to a maximum period of ten days on payment of double fee. The Controller of Examinations shall certify that:-

- a) The script has not been changed.
- b) No portion of the script has been left unmarked.
- c) The marks awarded in the script have been correctly brought out on its cover.
- d) The grand total on the cover of the script is correct.
- e) The grand total on the cover of the script is correctly transferred to the award list.
- f) The result has been correctly posted and notified

## 18. Academic Deficiencies

A student, who obtains one or more of the following in a semester result, shall be considered academically deficient:

- i) One or more "F" grades in a semester.
- ii) One or more "I" grades in a semester
- iii) SGPA less than 1.00 at the end of 1st semester
- iv) CGPA less than 2.00

### (a) Academic Dismissal

A student who fails to obtain a minimum GPA of 1.0 at the end of 1st semester of a degree programme shall be placed on academic probation for the 2nd semester. In case, he fails to improve his CGPA to 1.0 at the end of 2nd semester, his name shall be removed from the Rolls of the University. Students dismissed on academic grounds shall, however, be furnished with an official transcript indicating the course completed along with grades earned in registered courses.

### (b) Re-admission

Re-admission in the first year, without

going through the admission process, is granted to only those undergraduate students who have been dismissed on academic grounds but only for once. There is no second re-admission.

c) **Relegation to Lower Semester**

An academically deficient student can apply to the Chairmen of concerned department for Willing Relegation to lower semester to overcome his academic deficiencies. The Chairman will refer his case to the Departmental Semester Committee for appropriate decision which will be forwarded to the Controller of Examinations through the concerned Dean for Vice Chancellor's approval and subsequent notification. The Willing Relegation to lower semester can only be availed once during the entire degree programme subject to written consent of the parents / guardians.

19. **Incomplete (I) Grades**

A student may request for the award of an 'I' (Incomplete) grade, if for some genuine reasons (beyond his control), he fails to appear in an end semester examination or final project. 'I' grade will not be awarded for any other deficiency in a course (e.g. shortage in attendance etc). For the award of an 'I' grade, the student will apply on a prescribed form "i.e. 'I' Grade Application Form" to the Chairman of the concerned department, who will refer the case to the Departmental Semester Committee for consideration. The Departmental Semester Committee will make its recommendations based on the genuineness of the case and on the basis of his performance in mid semester examination, lab work, home assignments, quizzes, class participation etc. In case the student is allowed an 'I' grade in a course by the Chairman of the Department on the recommendations of the Departmental Semester Committee, he would be allowed to take only End Semester Examination of that course on payment of prescribed fee. The 'I' grade must be completed before the commencement of the forthcoming End Semester Examination, failing which the 'I' grade will automatically be converted to 'F' Grade. "I" grade will not be awarded in Summer Semester.

20. **Repeating Courses / Improving Grades**

- a) If a student obtains 'F' Grade in any course, he shall have to repeat that or an equivalent course. Similarly whenever a student obtains a grade "D", he can repeat that course to improve his grade. A student shall be allowed to repeat a maximum of six courses to improve the grades during the entire degree programme.
- b) An academically deficient regular student will be allowed to repeat / improve maximum of two courses during a summer semester if offered as well as during a regular (Fall or Spring) semester whenever the teaching and examination schedule makes it possible for him to register himself for the courses, attend the classes and to take the Mid and End Semester Examinations. While the academically deficient casual student shall

be allowed to repeat/improve if offered the courses either during summer semester or whenever the teaching and examination schedule makes it possible for him to register himself for the courses, attend the classes and to take the Mid and End Semester Examinations. Casual students can register for a maximum of Two courses in a Summer Semester and Five (05) Courses in a Post Eighth Regular Semester. In case of repetition / improvement of a course the student shall have to pay course registration and examination fee as prescribed by the University.

- c) As soon as a student is registered for a course, his previous grade for that course whether low or high shall be cancelled, and only the latest grade earned by the student shall be considered for the computation of CGPA. It shall be noted that a student can only improve a grade lower than D and F.
- d) In case a student repeats the course which has already been taken, the old grade will be substituted with the new grade, (for CGPA calculation) but in case a student takes a new course in lieu of the course in which he failed, both the courses alongwith grades will be reflected on his transcript.

21. **Freezing of Semester**

Students will be allowed to freeze a semester only once during the entire degree programme owing to some extreme and genuine reason to be determined by the Departmental Semester Committee. Students shall not be allowed to freeze their First and Second Semester(s), in any circumstances. Only those students who have completed their First Academic Year at the University shall be eligible to avail this facility.

A student must apply to the Chairman of the Department, in writing, for freezing of one or two consecutive semesters within fifteen days of commencement of the semester. Students can request for freezing of at most two (02) consecutive semesters with Summer Semester not being counted. The Dean of concerned faculty will approve the request on the recommendation of the Departmental Semester Committee and Controller of Examinations shall notify the Freezing of Semester(s) accordingly.

On his return, the student will be re-registered in the same semester with next junior class, in case of freezing two consecutive semesters and his courses shall be evaluated by the concerned Chairman of the department to determine their relevance to the changes made in the curriculum (if any). In such a case, the student shall be required to modify the degree plan in order to ensure conformity to the recent curriculum. Also, students will be required to pay the difference of University fee (if any) besides the re-registration fee. In case of freezing one semester, the student may re-join his own class. The deficiency created by frozen semester shall be made up after completing the remaining courses with his class i.e. after eighth semester by enrolling as a Casual Student.

The maximum duration of the degree programme shall remain the same which will be considered from the date of his first semester registration including the frozen semesters.

## 22. Withholding of Comprehensive Result

The comprehensive result of a candidate, who is allowed to appear in the final semester examination while carrying courses of the lower semesters, shall not be declared till he clears the courses of lower semesters as a Casual Student. His Comprehensive result will be declared with the session in which he clears his last course of the degree programme. After the declaration of 8th Semester result the student, who have cleared all the courses shall be required to submit the DEGREE REQUIREMENTS COMPLETION FORM for their Comprehensive Result Notification. While the academically deficient student shall submit the CASUAL STUDENT ENROLLMENT FORM.

## 23. Transfer of Credits

Transfer of credits shall be applicable only for those students who have been migrated to this University. Credits for only those courses shall be transferred which fulfill the following criteria:

- Credits can only be transferred from a PEC (Pakistan Engineering Council) accredited programme.
- A course with similar title, standard, duration, credit hours and matching course description is available in the relevant academic programme of the University. ## DETERMINATION OF MERIT

# 32

### 32.1 Examinations Considered for Merit

For admission to all the Bachelors Degree Courses and determination of merit the following examinations are considered:

- i) Higher Secondary School Certificate Examination (HSSC) Pre-Engg or equivalent.
- ii) Bachelor of Science (BSc) or BAsC.
- iii) Diploma of Associate Engineer.
- iv) Entry Test.

### 32.2 Weighted Percentage

The comparative merit of applicants will be determined on the basis of weighted percentage marks obtained by them in these examinations.

- A) For Applicants with HSSC (Pre-engineering) as the Highest Qualification

i)	HSSC (Pre-engineering) or Equivalent	70%
ii)	Entry Test	30%
B) For Application with BSc OR BAsC as the Highest Qualification		

i)	BSc or equivalent	35%
ii)	HSSC or equivalent examination	35%
iii)	Entry Test	30%

- C) For Applicants Having Diploma of Associate Engineer as the Highest Qualification

i)	Diploma of Associate Engineer	70%
ii)	Entry Test	30%

### 32.3 Merit of FSc (Pre-medical) with Mathematics

In determining the merit of an applicant having FSc (Pre-medical) with Mathematics as an additional subject, the marks obtained in the subject of Biology are replaced by those obtained in Mathematics.

### 32.4 Credit for NCC

Twenty marks are added to the marks obtained in the highest examination of an applicant who has successfully completed the NCC training. An applicant gets the benefit only if he submits with his application an attested photocopy of the original certificate issued by the Director General National Cadet Corps & Women Guard. No substitute for the original certificate is recognized.

### 32.5 Credit for Hifz-e-Quran

Twenty marks are added to the marks obtained in the highest examination of an applicant who is Hafiz-e-Quran. He gets the benefit only if he:

- i) fills in the necessary column provided in the application Form (F-I), and
- ii) appears before the 'Verification Committee' appointed by the Vice-Chancellor and the Committee accepts his claim of being a Hafiz-e-Quran.

**The Verification Committee** will meet for this purpose in the office of the Convener, Admission Committee, on the notified date and time. No separate call letters will be issued in this connection.

### 32.6 **Determination of Merit in case of Equal Percentage of Admission Marks**

If two or more applicants have equal percentage of admission marks (up to three decimal places), they shall be treated at par for the purpose of admission.

**Explanation:** In case there is a tie for the last seat in a particular Discipline/Category, then all the candidates who have secured equal percentage of Admission Marks (up to three places of decimal) shall be admitted. No transfer or new entry into that Discipline/Category shall, however, be considered unless the actual number of candidates already admitted falls below the number of allocated seats for the Discipline/Category.

### 32.7 **Merit Determined Category Wise**

The seats for admission to the Bachelor's degree courses at the university are distributed over various categories. These categories are discussed in Section 31. The details of the distribution of seats are available in the Seats Allocation Chart in Section 30.

The eligible applicants for each category are grouped separately. Then on the basis of the weighted percentage of marks obtained in the relevant examinations, comparative merit of the applicants comprising the group is prepared. The applicants belonging to a category thus compete for admission amongst themselves for the seats allocated to it.

### 32.8 **Transfer on the Basis of Given Preferences and Merit**

In case a seat in any Discipline/ Category of higher preference given by a candidate falls vacant and he is eligible for transfer to that Discipline/Category on the basis of his merit, he shall be automatically transferred to that Discipline/Category. He will have no right to retain his admission in the previous Discipline/Category because the seat vacated by him shall be simultaneously allotted to the next eligible candidate on merit.

### 32.9 **Freezing in any given Discipline and Category**

If an applicant requests in writing to retain the discipline and category in which he has been selected for admission on merit, then he will not have any right to claim his admission in any other discipline and category of higher or lower merit if a seat falls vacant in any discipline.

### 32.10 **Variation in Seats**

The university authorities may exercise their right at any time to increase or decrease the number of seats allocated to any category and there shall be no appeal against such a decision.

## 32.11 **Typical Examples for the Calculation of Weighted Percentage for Admission**

### **CASE 1:**

**Applicants having HSSC (FSc) or Equivalent as the highest qualification**

#### **Formula :**

$(70 \times ((\text{HSSC marks obtained} + \text{NCC} + \text{HIFZ-E-QURAN}) / \text{HSSC total marks})) + (30 \times (\text{Entry Test marks obtained} / \text{Entry Test total marks}))$

#### **Example**

An applicant obtained 848/1100 in HSSC (having passed the HSSC examination as a whole) and 300/400 in Entry Test. He has obtained NCC Certificate as well.

% Admission Marks

$$(70 \times ((848 + 20) / 1100)) + (30 \times (300 / 400)) = 77.736 \%$$

### **CASE 2:**

**Applicants having BSc or BAsC as the highest qualification**

#### **Formula :**

$(35 \times (\text{HSSC marks obtained} / \text{HSSC total marks})) + ((35 \times \text{BSc marks obtained} + \text{NCC} + \text{HIFZ-E-QURAN}) / \text{BSc total marks}) + (30 \times (\text{Entry Test marks obtained} / \text{Entry Test total marks}))$

#### **Example**

An applicant obtained 820/1100 marks in HSSC, 624/800 marks BSc (Passed all of them as a whole) and 360/400 marks in Entry Test, having also NCC certificate:

% Admission Marks

$$(35 \times (820 / 1100)) + (35 \times ((624 + 20) / 800)) + (30 \times (360 / 400)) = 81.265 \%$$

### **CASE 3:**

**Applicants having Diploma of Associate Engineer as the highest qualification**

#### **Formula :**

$(70 \times ((\text{Diploma marks obtained} + \text{NCC} + \text{HIFZ-E-QURAN}) / \text{Diploma total marks})) + (30 \times (\text{Entry Test marks obtained} / \text{Entry Test total marks}))$

#### **Example**

An applicant 2570/3100 in Diploma and 240/400 in Entry Test. He has obtained NCC Certificate as well.

% Admission Marks

$$(70 \times ((2570 + 20) / 3100)) + (30 \times (240 / 400)) = 76.483 \%$$

## DOMICILE REQUIREMENTS

34

## 34.1 Domicile Certificates to be submitted by All Applicants

All applicants are required to submit with their applications an attested photocopy of their domicile certificate failing which their applications shall not be considered for admission.

## 34.2 Applicants Required to Submit Additional Documents

Applicants for categories A1, A2, G, I, L, N, Q1, Q2, T, W1, W2, I-1, S1, S2 and P who have passed either the Secondary School Examination or the Higher Secondary School Examination from any Board of Intermediate and Secondary Education not included in the Punjab Province or Federal Capital Area, Islamabad, will have to submit additional documents in support of their domicile.

## 34.3 Additional Documents Required

The applicants who are required to submit additional documents may fall into the following three categories:

## a. Children of Government Servants

If the parent of the applicant is a government servant who belongs to Punjab but is serving in any other province of Pakistan, then the parent should produce a certificate on Form F-II from the head of his department

affirming that he is a permanent resident of the Punjab. It shall be necessary in such cases that the period of the applicant's study corresponds with the period of the posting of the parent in that province.

## b. Others

Applicants other than those at sub para "a" above have to submit the following additional documents in support of their domicile certificate:

- i) An attested Photocopy of father's/ mother's domicile certificate of the Punjab Province or the Federal Capital Area, Islamabad.
- ii) Documentary Proof in the form of a certificate on Form F-III from the election officer of concerned area of the Punjab Province/ Federal Capital Area, Islamabad to the effect that name of the father/mother of the applicant appears in the electoral rolls.
- iii) An attested Photocopy of the relevant page of the electoral rolls on which the name of the father/ mother of the applicant appears.
- iv) An attested Photocopy of the identity card of the applicant's father/mother.
- v) An undertaking from the candidate on Form F-IV.

- c. **Applicant Whose Father is not Alive**  
In case his father is not alive and the above documents cannot be produced, the applicant should submit:
- i) Documentary evidence of his father's/mother's immovable property in Punjab or Federal Capital Area, Islamabad.
  - ii) Documentary proof of his father's death.

#### 34.4 Domicile Requirements for Children of the Armed Forces Personnel

In addition to the seats reserved for the category J, the children of the Armed Forces personnel can apply for admission on basis of merit against seats reserved for their province of domicile or the seats reserved for the province in which their parent (the member of the Armed Forces) is posted.

Thus an applicant who is domiciled in Sindh but his parent is posted in Punjab can apply against seats reserved for Sindh or against seats reserved for Punjab. However, if he applies under category A, he has to submit with his application a certificate from the GOC of the area regarding the place of his parent's posting.

you have to submit in original a certificate from the Registrar of the university on prescribed Form F-IX (Available in the Registrar's office).

- e. If you are applying for the N Category seats, you have to submit an attested photocopy of the relevant degree of your father or mother.
- f. If you are applying on O category seats, you have to submit an attested photocopy of the educational degree/certificate of your parent as an evidence of the fact that he (parent) was a graduate of this university or its parent institution, i.e. the former University College of Engineering.
- g. If you are applying on P, Q1 or Q2 category seats, you have to submit a certificate from the District Coordination Officer verifying that he is a bonafide resident of the tribal areas of respective districts.
- h. If you are applying on X or Z category seats, you have to submit
  - i) A Certificate on Form F-VIII (can be downloaded from university website) regarding his parent's employment in a foreign country issued by the Pakistani embassy in that country.
  - ii) A photocopy of his parent's valid resident visa for that country attested by the Pakistani Embassy.
- i. If you have successfully completed the NCC training and wish to claim 20 marks you have to submit an attested photocopy of the certificate issued by the Director General National Cadet Corps and Women Guards.
- j. If you are claiming 20 marks for being Hifz-e-Quran, read clause 32.5 of the prospectus carefully.
- k. If you are the son of Armed Forces Personnel and are seeking admission not against the seats reserved for the province of your domicile but against the seats reserved for the province where your parent is posted, you have to submit in original certificate from the GOC of the area about the place of your parent's posting.
- l. If you are applying for any category requiring the Punjab domicile and you have passed either the Secondary School Examination or the Higher Secondary Examination from a Board or Institution not included in the Punjab/Federal Capital Area, Islamabad. You should read section 34.2 carefully to find out the additional documents, you have to submit alongwith form F-I.

## DOCUMENTS TO BE ATTACHED WITH FORM F-I 35

An applicant must exercise great care in ensuring that his application form (F-I) is submitted accompanied by the required documents. An application shall stand rejected if any of the required documents is missing. No document shall be accepted after the last date for receipt of applications. The documents required from applicants for different categories are summarized below:

#### 35.1 Documents to be submitted by All Applicants: (Attested Photocopies)

- a. Certificate of Secondary School Examination (Detailed Marks Certificate).
- b. Degree, Diploma or Certificate of the examination on the basis of which admission is sought (i.e. FSc, BSc, or Diploma of Associate Engineer etc.). Results cards issued by the board/university are acceptable. Provisional Certificate in place of Degree/Diploma will not be accepted.
- c. Detailed Marks Certificate of the examination on the basis of which admission is sought.
- d. Domicile Certificate.

#### 35.2 Additional Documents (Mandatory)

To whom applicable:

- a. If you have passed FSc. (Pre-medical), you have to submit an attested photocopy of the certificate for additional Mathematics.
- b. If you are seeking admission on the basis of BSc Degree you have to submit an attested photocopy of the FSc Certificate as well.
- c. If you are applying for G category seats, you have to submit a certificate from concerned Medical Superintendent of D.H.Q. Hospital.
- d. If you are applying for the M Category seats,

**Note: The Form F-V, Form F-VI and Form F-VII are not to be submitted along with the application. They are required at the time of admission/registration.**

## HOW TO COMPLETE THE APPLICATION FORM

# 36

While reading the following instructions for completing application form F-I keep referring to F-I specimen. That will make it easy for you to understand the instructions and to complete the Form correctly.

- 36.1 Only one application form is to be submitted for any number of disciplines and categories you apply for.
- 36.2 All entries should be in BLOCK LETTERS.
- 36.3 **Fill the column for preferences very carefully. The order of preferences once given shall be final and cannot be changed subsequently.**
- 36.4 Under column "Discipline" use the following abbreviations (as shown in F-I specimen):

### Taxila Campus

Civil Engineering	<b>Civil</b>
Computer Engineering	<b>Comp</b>
Electrical Engineering	<b>Elect</b>
Electronic Engineering	<b>Electronic</b>
Mechanical Engineering	<b>Mech</b>
Software Engineering,	<b>Soft</b>
Telecommunication Engineering	<b>Tel</b>
Industrial Engineering	<b>Indu</b>
Environmental Engineering	<b>Env</b>

### Chakwal Campus

Electronic Engineering	<b>Electronic</b>
Mechatronics Engineering	<b>Mtro</b>

- 36.5 Under the column "Category" use only the symbols (i.e. A1, A2, G, I, L, M, N, O, Q1, Q2, T or X) for Main Campus and use the symbols W1, W2, S1, S2, P, Z or I1 for Chakwal Campus.

**For Example :**

Sr. No.	Discipline	Category
1	Mech	A1
2	Electronic	A1
3	Mech	A2
4	Electronic	W1

**Now the above table shows that your:**

- 1st preference is Mechanical (Main Campus) for High merit seats.
- 2nd preference is Electronic (Main Campus) for High merit seats.
- 3rd preference is Mechanical (Main Campus) for Regular merit seats.
- 4th preference is Electronic (Chakwal Campus) for High merit seats.

- 36.6 Since no erasure or overwriting is allowed in these columns, be very cautious, if you fill it once and you want to change it later, you will have to get another prospectus.
- 36.7 Write your mailing address on the stickers available in the enclosures and attach it with the application.
- 36.8 **Deadline for Receipt of Applications**

- a. The application form complete in all respects along with the requisite documents should reach the **Convener, Admission Committee, University of Engineering**

- and Technology, Taxila** on or before the last date notified for receipt of applications.
- b. The application may be delivered personally or sent under registered post.
- c. **Application received after the closing date shall not be entertained, irrespective of the fact that it was posted before the closing date.**

## 36.9 Incomplete Applications

Incomplete applications shall not be entertained. Application form, fee and the documents submitted with it shall not be returned on any ground.

## PROCEDURE FOR THE SELECTED CANDIDATES

# 37

### 37.1 Notification of Selection

A list of selectees will be displayed on the university notice boards and on official University web site(www.uettaxila.edu.pk). The applicants can check the merit lists according to the schedule given in Section 40.

### 37.2 Depositing of Dues and Documents

Within specified days mentioned in the admission schedule (Section 40), a selectee is required to pay the university dues and submit the following documents to the Convener, Admission Committee.

- Bank Challan receipt in support of the University Dues deposited in the Habib Bank Ltd., Engineering University Branch Taxila.
- Medical Certificate (F-V) duly signed and stamped by the District Medical Superintendent or the Medical Officer of the university or a Commissioned Medical Officer
- Ten attested and most recent photographs.
- Attested Certificate of parent's/guardian's income.
- Original degrees, certificates and result cards of SSC, FSc, BSc, GCE(A), Diploma of Associate Engineers or the equivalent qualifications and their duplicate attested photocopies.
- Original Marks Sheet of Entry Test.
- Original NCC certificate.
- Original Domicile certificate.
- Attested photocopy of National Identity Card/Form B.
- Bio-Data Sheet (F-VI) duly completed.
- Undertaking (F-VII) on a Rs.20/- judicial paper duly completed.

### 37.3 Relaxation in Time Limit

If a selectee is prevented by unavoidable circumstances from timely fulfillment of the requirements laid down in 37.1 and 37.2, he should intimate the Chairman/Convener Admission Committee about it within the prescribed time limit along with relevant documentary proof. The Chairman/Convener Admission Committee may, at his discretion, grant relaxation in the time limit, which shall not exceed THREE days.

**37.4 Forfeiture of Right for Admission**

A selectee who fails to fulfill the requirements laid down in 37.1 and 37.2 within the prescribed time limit shall forfeit his right of admission.

**37.5 Provisional Admission**

On fulfillment of the obligations mentioned in 37.1 and 37.2 a selectee will be admitted to the university. This admission shall however, be provisional until all the original degrees or certificates, submitted by him, have been verified for their veracity. In case any document proves to be false, fake, fabricated or do not comply towards eligibility criteria mentioned in section 29 found at a later stage, a provisionally admitted student shall be liable to expulsion from the university and to any other disciplinary or legal action the university may deem fit. Moreover, all the fees and charges deposited by him shall stand forfeited in favor of the university.

**37.6 Deadlines for Admission**

Admission shall be closed from date as given in admission schedule (clause 40).

**37.7 Notification of Selection of Categories B, C, D, E, F, H, J, K, R, Y**

The applicants for the seats reserved for these categories will be informed about selections by the authority responsible for their selection. After that the university will issue them call letters with a target date to report in the Admission Office to complete the remaining admission formalities.

- 38.1 The following fees and charges are to be paid by the students admitted to the bachelor degree courses. The same are subject to revision/modification by the University authorities at any time without prior notification.

Subject	All Categories except X & Z	Overseas Pakistanis Categories X & Z
Non-Recurring (Payable at the time of admission)	(In Pak. Rupees)	(In Pak. Rupees)

Bus Fare for Non-Resident	5000	5000

**Note:** Students admitted under categories A1, B, C, D, E, G, H, I, I-1, J, K, L, N, O, P, Q1, Q2, R, S1, T, W1 and Y are provided financial support of Rs. 30,000 which consists of (Rs.18,000 per Semester) non-refundable grant and (Rs.12,000 per semester) interest free loan payable after graduation. Those who opt to pay interest free loan during studies shall get 50% concession and shall pay Rs. 6000 per semester in lieu of interest free loan (therefore total tuition fee will be Rs. 12,000 per semester, if paid during studies)

- 38.2 For Examination Fees, see the relevant section.

- 38.3 The University also grants fee remission and fee concession as per rules to subsidized students. Students are directed to maintain their own personal record of original receipts of dues till clearance to avoid problem in future. Non production of original Dues/receipts on demand can be considered as non-deposit of fee.

**38.4 Financial Support for High Merit in Tuition Fee**

University provides financial support to the students of categories A1, B, C, D, E, G, I, I-1, K, L, N, O, P, Q1, Q2, R, S1, T, W1 and Y. But, if a student is found guilty of indulging in unhealthy activities, this subsidy may be fully or partially withdrawn by the Vice-Chancellor. The subsidy is meant only for the students admitted under high merit therefore for entry 2011 and onwards shall be given to the students admitted under category A1 and those others who have equivalent merit in the same department from other categories.

**38.5** The Dean of the concerned faculty, on the recommendation of the Chairman concerned, may grant extension in payment of dues to the needy students on cogent reasons recorded in writing for a certain period beyond the schedule of the dues circulated by the Treasurer. He may also allow the payment of dues in TWO installments. However, remission of late fee fine or re-admission fee cannot be waived off in any case.

**38.6** Once a student is registered, no refund of any amount deposited by the student for admission, except the securities, shall be allowed in any case at any stage.

**38.7** University dues received in favour of a student under loan scheme of National Bank Loan will be adjusted against his outstanding dues. Excess amount (if any) will be refunded to the NBP under intimation to the student concerned. Financial assistance received from Pakistan Bait Ul Mall Scheme or any other agency / organization for a student will be adjusted against his outstanding dues. The amount will not be refunded to the student. In case he has already been granted Half/Full fee concession for the said period, it will stand cancelled automatically and he will deposit the fee concession amount in favour of the university or financial assistance will be adjusted against outstanding dues. Excess amount (if any) will also be refunded to the donor agency. Student can avail one financial benefit from any agency at a time.

**38.8 HOSTEL CHARGES**

	(In Pak. Rupees)
Hostel Security (Refundable) Payable at the time of admission	3000
Mess Security (Refundable) Payable at the time of admission	3000
Service and Contingency Charges (Payable at the time of admission)	1000
Room Rent (Per Semester)	
Cubicle	1500
Dormitory	1200
Electricity Charges (Per semester)	
Room (Cubicle)	1800
Room (Dormitory)	1200
Room Heater/fans	1800
Sui Gas Charges	600
Air Cooler Charges (per session)	1200

**38.9 Periods of Fees and Other Charges:**

Tuition, recreation, Sui gas charges and medical fees are charged for whole year i.e. for twelve months. The hostel charges are payable for the whole semester. Electricity charges for fans are payable for summer session and will be charged with the fee during spring semester. While the electricity charges for room heaters are payable for winter session and will be charged with the fee during fall semester. With the prior permission of the Senior Warden, the resident students can use air coolers during summer session. They will be charged an additional amount of Rs. 1200/- per room per session.

**38.10 Securities**

All kind of securities mentioned above remaining unclaimed for two years from the date of becoming due for refund shall lapse to the University for transfer to the Endowment Fund.

**38.11 Refund of Securities**

The university security, library security, hostel security and mess security are refunded when a student leaves the university or the hostel (in case of mess security) after deduction of outstanding dues of the university, library, or the hostel respectively. The university security, however, shall stand forfeited if a student withdraws from or leaves the university before completing the first year.

**38.12 Non-payment of Fee and Charges**

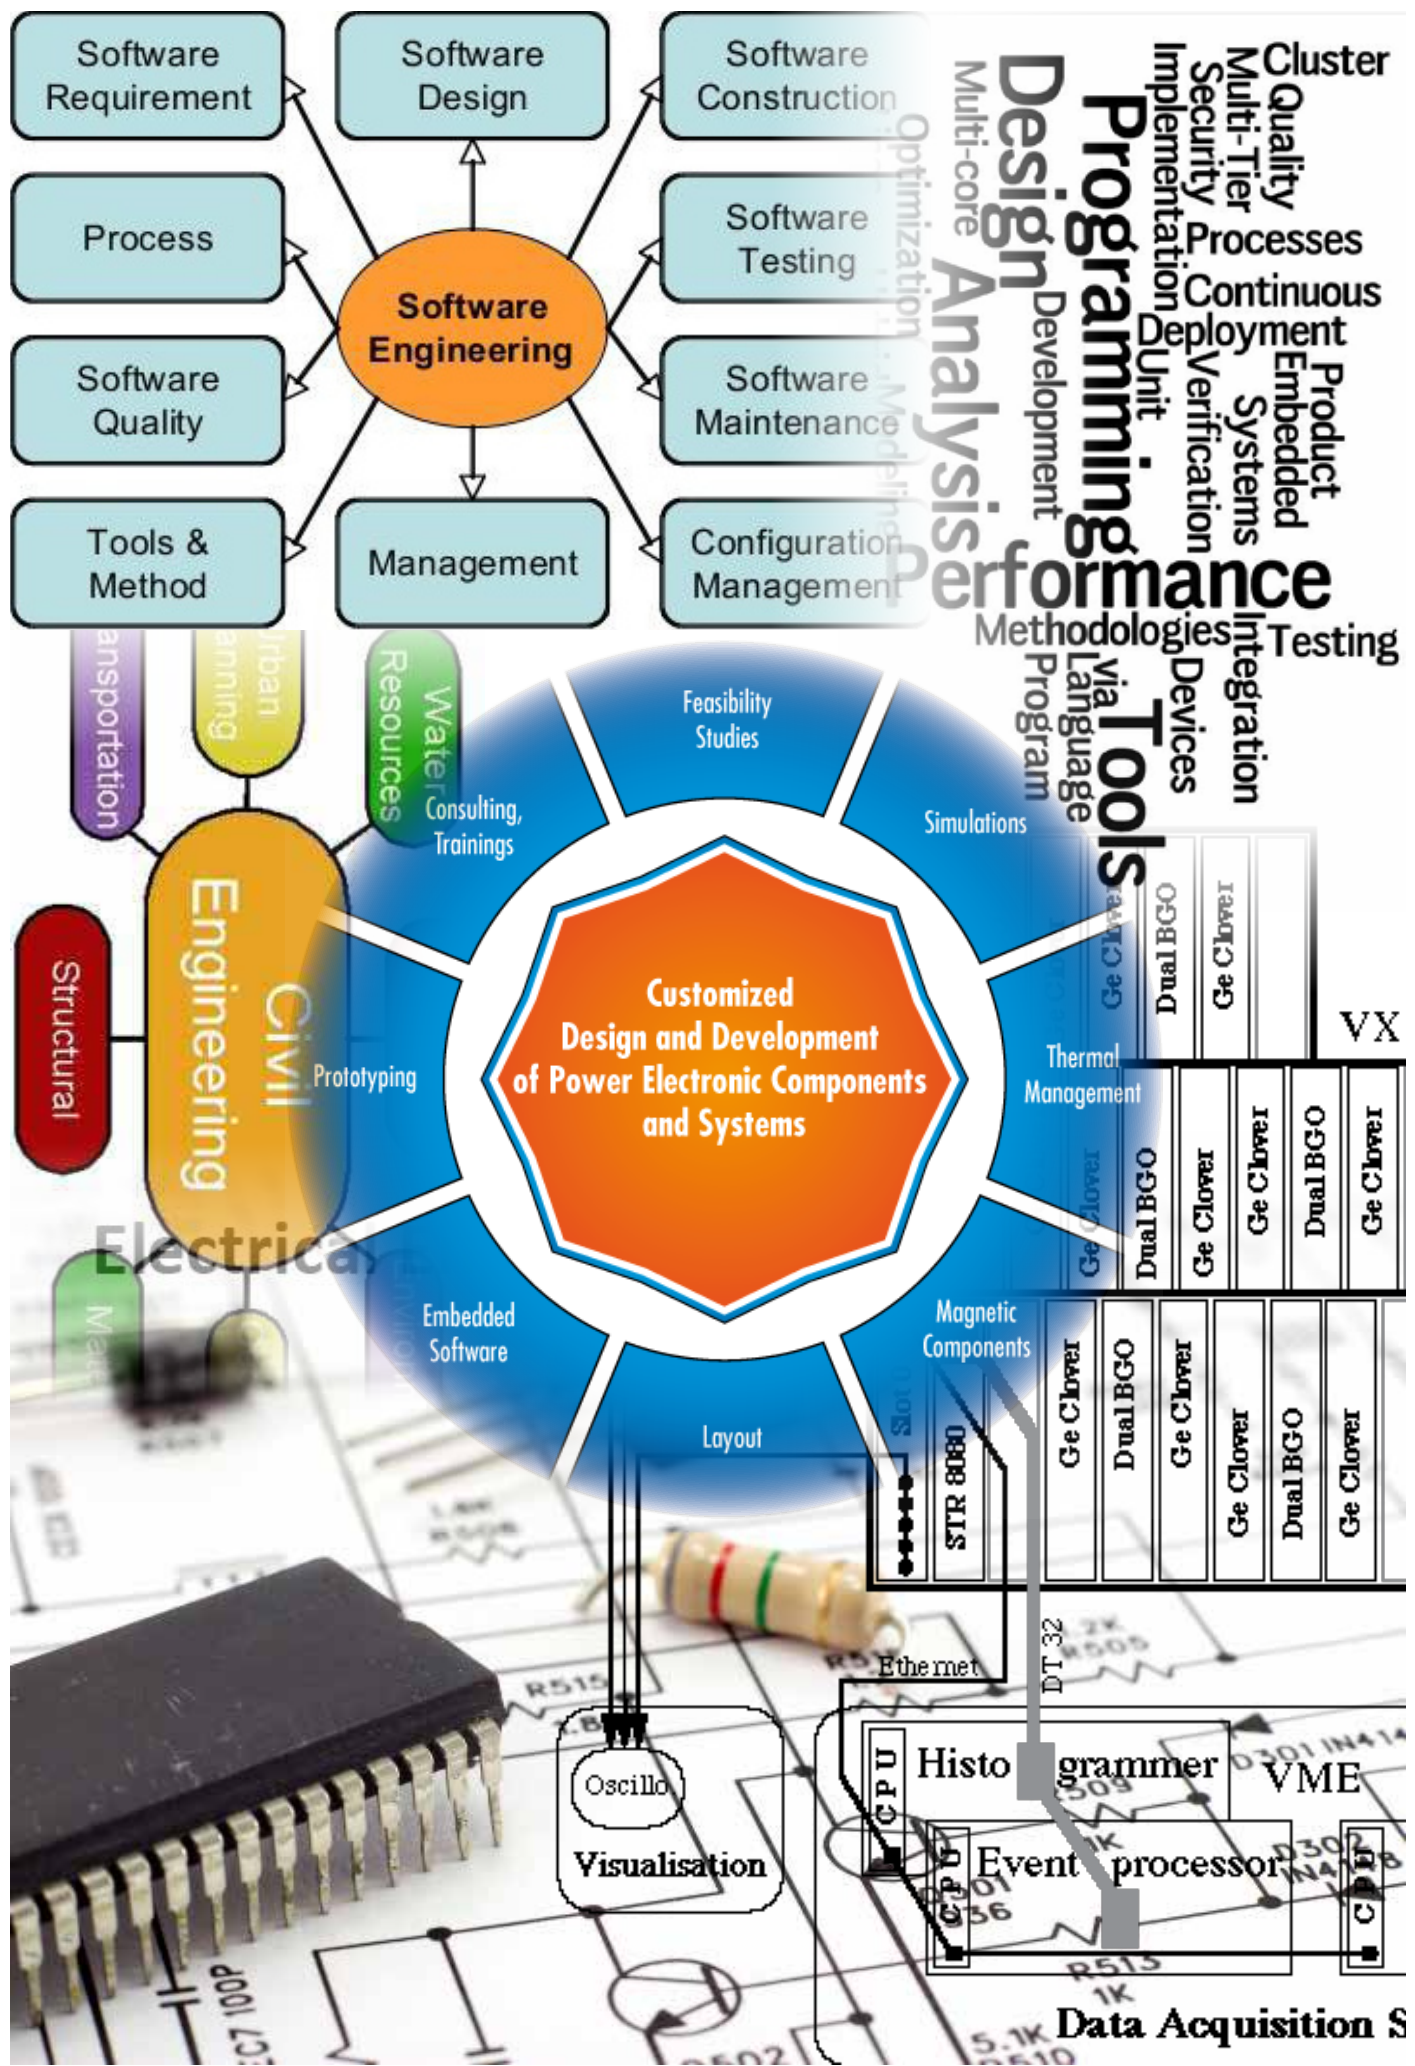

A fine of Rs.10.00 per day will be charged for a period of 30 days after the last date fixed for payment of fees and charges. After that, the name of the defaulter will be struck off the rolls of the university and he will have to pay the re-admission fee along with the fees and fine before he is re- admitted. Application to this effect shall be submitted to the concerned Dean of Faculty.

However, a student who receives scholarship through the university Treasurer may pay his fee and charges without fine within a week of receipt of the scholarship for the corresponding period.

**UNIVERSITY OF ENGINEERING AND TECHNOLOGY,  
TAXILA  
SUB-CAMPUS CHAKWAL**

---

### Campus Director

Prof. Dr. Mukhtar Hussain Sahir  
PhD (Taxila)

### The Chakwal City

The city was founded during the era of Mughal emperor Zaheer-ud-Din Babar. Alexander the great also passed through this region in 326 B.C. One of the Muslim Scientists Al-Beruni came to this valley and stayed here for some time. During his stay at Katas, he not only learned Sanskrit but also performed various geographic experiments and successfully measured the radius of earth.

Chakwal district is rich in natural resources such as coal, limestone, gypsum, salt, petroleum and other valuable minerals. Three cement plants with total production capacity of 24000 tons per day are already operational. Some textile factories and oil exploration companies are also working in the surrounding area.

### The Sub-Campus Chakwal

Almost thirty years after the establishment of the main campus, first campus of UET Taxila at Chakwal started functioning in the year 2005. So far, seven sessions have been enrolled in Electronics and Mechatronics engineering. Annual intake in each discipline is 50.

## Location

The Sub-campus is situated in the heart of the Chakwal city in old Kachehri complex on Talagang road Chakwal is located 110 Km south-east of the capital city of Islamabad in the Dhanni region of the Pothohar Plateau. The Chakwal campus can easily be approached by either of the two exits on the Motorway M2. i.e., Balkassar and Kallar Kahar. The main campus is under construction near the Balkassar Interchange.

## Administration

The Campus Director under the supervision of Vice-Chancellor UET Taxila is the administrative and academic head of the Sub-Campus Chakwal. The overall management policy guidance is provided by the University Syndicate. The various academic and administrative bodies delineated in the UET's charter, function actively. The normal academic procedures and administrative rules of the UET Taxila are followed in the Sub-Campus Chakwal.

## Faculty of Engineering

Two departments are functioning under the faculty of engineering. At present, degrees of B.Sc. Engg are offered in the following departments:

Departments of Electronics Engineering

Departments of Mechatronics Engineering

## Academic Programmes

The sub-Campus Chakwal of UET Taxila offers four years under graduate programs in Electronic and Mechatronics Engineering. These programs are accredited by Pakistan Engineering Council (PEC).

## Future Plan

The Sub-Campus Chakwal has planned to establish three more departments in the second phase with the help of Punjab Govt. / Higher Education Commission.

## Hostel Facility

At present, Hostel facility is NOT available at the sub-campus Chakwal. Students applying for admission at Chakwal Campus must keep in mind that they have to arrange for their residence at their own in Chakwal City.

## Rules and Regulations

In general, all the rules and regulations mentioned for the main campus (UET Taxila) in the prospectus are applicable for Sub-Campus Chakwal.

## The Department of Electronics Engineering

Electronics Engineering is one of the major fields in industry. It finds vast range of applications. At sub campus Chakwal we offer BSc. Electronics Engineering. Department has twelve full time Faculty members and around 200 Students enrolled. Three batches of Department have passed and the program is PEC accredited. We have well equipped laboratories of Electronics, Computer, Embedded Systems, Communication Systems and Circuits & Measurements. Department has established Industrial Linkages to Support its students for their Projects, Internships and Jobs.

## Laboratories

### Electronics Lab

(Lab Director Engr. Ahmed Umar Niazi )

Electronics Lab is one of the Major Labs in the department. The lab is equipped with Basic Electronic Trainer, Power Electronics Trainers and Test Equipment including Function Generators, Power Supplies, Oscilloscopes and DC power Supplies. The scope of the Labs included subject like Basic Electronic Engineering, Electronic Circuit Design,

Integrated Electronics, Power Electronics and other related courses.

### Circuits and Measurements Lab

(Lab Director Engr. Laiq Ur Rahman)

The lab includes courses of Basic Circuit Analysis, Network Analysis, Instrumentation and Measurement, Industrial Electronics and other related courses. The lab includes state of art equipment to support the subjects.

### Embedded Systems Lab

(Lab Director Engr. Abdul Basit)

The Laboratory covers the scope of courses like FPGA based system design, Digital Logic Design, Microprocessor and Microcontrollers and other related subjects. The lab included Xilinx based FPGAs, Microcontroller trainers of PIC and 8051, Texas DSP kits and other test equipment.

### Computer Lab

(Lab Director Engr. Furqan Shaukat)

The lab has latest computers to support all courses requiring computer simulations including computer fundamentals, Computer Programming, Computer Aided Engineering Design, Computer Communication Networks and other related courses.

### Communication Systems Lab

(Lab Director Engr. Haq Nawaz)

The lab is equipped with Antenna Trainers, Communication Trainers, Transmission Line Trainer, Spectrum Analyzer and Other test equipment. The lab supports courses like Analog and Digital Communications, Antenna and Wave Propagation, Micro Wave Engineering and other related courses.

### Project Lab

(Lab Director Engr. Hasan Nazir)

The lab is equipped with Computer and work benches. The lab support students to develop their projects.

## List of Elective Courses

### Group A

- EE-4XX Opto Electronics (3+1)
- EE-4XX Digital Instrumentation Systems (3+1)
- EE-4XX Industrial Electronics (3+1)
- CS- 4XX Advanced Objected-Oriented Programming (3+1)
- EE-4XX VLSI Design (3+1)
- EE-4XX Microwave Engineering (3+1)
- EE-4XX Wave Propagation and Antennas (3+1)
- EE-4XX Introduction to Robotics (3+1)
- EE-4XX Digital Control Systems (3+1)
- EE-4XX Digital System Design (3+1)
- EE/CS-4XX Computer Communication Networks (3+1)
- EE/CS-4XX Artificial Intelligence (3+1)
- EE-4XX Biomedical Instrumentation (3+1)
- EE/CS-4XX Digital Image Processing (3+1)
- EE-4XX Mechatronics Applications (3+1)
- EE-4XX Embedded System Design (3+1)

### Group B

- EE-4XX Laser and Fiber Optics (3+0)
- EE-4XX Mobile Communications (3+0)
- EE-4XX Satellite Communications (3+0)
- EE/CS-4XX Introduction to Neural Networks (3+0)
- EE/CS-4XX Fuzzy Logic and Simulation (3+0)
- EE-4XX Advanced Communication Systems (3+0)
- EE-4XX Optical Communication Systems (3+0)
- EE/CS-4XX Pattern Recognition and Matching (3+0)
- EE-4XX Microelectronic Technology (3+0)
- EE-4XX Navigational Aids (3+0)

# DEPARTMENT OF MECHATRONICS ENGINEERING

Mechatronics is the synergistic combination of precision mechanical engineering, electronic control and systems thinking in the design of products and manufacturing processes. To meet the quality and productivity demands, industries are compelled to use sophisticated electromechanical systems. Mechatronics Engineering caters the national needs of industries in the field of Robotics, Automated Manufacturing Equipment, Automobiles, Security Systems, Treatment Plants and Medical Equipments, etc.

## Laboratories

### CAD and Simulation Lab

The laboratory has latest computers to support the courses like Computer Programming, Computer Aided Design (CAD), Numerical Methods, Modeling and Simulation and Artificial Intelligence.

### Robotics and Automation Lab

The lab equipment includes SCARA Robot, Gryphon Robot, CNC machines, PLC and Pneumatic Trainer. The lab has resources for conducting experiments for the subjects of Robotics and Industrial Automation.

### Mechanics of Materials Lab

The lab equipment includes Universal Testing Machine, Impact Testing Machine, Hardness Testing Machine, Creep Testing Machine, Torsion Shaft Apparatus and Beam Reaction Apparatus. The lab is well equipped for conducting experiments of Mechanics of Materials subject.

### Instrumentation and Control Lab

The lab covers courses like Instrumentation and Measurement, Control Systems and Advanced Control Systems. The lab is equipped with Sensor Transducer Kits, Magnetic levitation system, Servo Mechanism Laboratory, Bridges and Actuators.

### Engineering Mechanics Lab

The lab is equipped with apparatus required for the subjects like Engineering Mechanics I & II, Engineering Materials and Mechanics of Materials. It includes Friction Arm and Inclined Plane apparatus, Roof Truss apparatus, Forces apparatus, Derrick Crane apparatus, Creep Testing machine, Beam Reaction apparatus, Stepped Shaft apparatus and other sophisticated apparatus required for the experiments of these subjects.

### Workshop

The lab is equipped with Milling Machine, Lathe Machines, Drill Press, Welding Plant, Soldering Units and all hand tools required for the practical work in Smithy Shop, Fitting Shop, Electrical Shop and Carpentry Shop etc. The laboratory covers the scope of courses like Workshop Practice and Machine Tools and Manufacturing Processes. Students use this facility in fabricating their projects.

### Projects Lab

The lab is equipped with Computers, Oscilloscopes, Power Supplies, Function Generators, PIC Training Kits, 8051 Training Kits, Digital Multimeters, Soldering Stations, Bread Boards, Motors, various ICs and work benches which provide the students solid platform to construct their projects.

### Electronics Lab

The lab is equipped with Digital Oscilloscopes, Operation Amplifier Trainers, Power Supplies, Electronics Trainers, Power Electronics Trainers and Test Equipment including Power Supplies, Digital Multimeters, Oscilloscopes and DC Power Supplies, The Lab covers subjects like Basic Electronics Devices, Circuit Analysis, Power Electronics, etc.

### Embedded Systems Lab

The Laboratory covers the scope of courses like Digital Logic Design and Microprocessor and Microcontrollers. The lab includes Microcontroller Trainers of PIC and Atmel, DSP kits and other related equipment.

## Faculty

### Professor

**Dr. Mukhtar Hussain Sahir**  
PhD (UET Taxila)

### Assistant Professor

**Engr. Amir Sultan**  
M.Sc. Engg. (UK)

**Engr. Hafiz Muhammad Khurram Ali**  
M.Sc. Engg. (UET Taxila)

**Engr. Shahid Mehmood**  
MSc. Engg. (UET Taxila)

**Engr. Abdul Mannan**  
MSc. Engg. (UET Lahore)

**Engr. Muhammad Khuram Saleem**  
MSc. Engg. (UET Lahore)

### Lecturers

**Engr. Irfan Azhar**  
MSc. Engg. (UET Taxila)

**Engr. Ahmed Nouman**  
MSc. Engg. (UET Lahore)

**Engr. Waqas Munir**  
B.Sc. Engg. (Air University) (On Higher Studies)

### Lab Engineers

**Engr. Amir Sharif**  
B.Sc. Engg. (UET Taxila)

**Engr. Sultan Fateh Ali Khan**  
B.Sc. Engg. (UET Taxila)

### Shared Faculty Professors

**Dr. M.S.I Alvi**  
PhD Engg. (UK)

**Dr. Shahab Khushnood**  
PhD Engg. (NUST)

**Prof. Rafi Javed**  
M.Sc. Engg. (USA)

**Prof. Khawaja Sajid Bashir**  
B.Sc. Engg. (Lahore)  
M.Sc. Engg. (Lahore), MBA Marketing (AIOU)

### Associate Professor

**Mr. Abdul Rauf**  
**Mr. M. Aslam Kahut**

**Dr. Guilstan Raja, PhD. UET Taxila**

### Assistant Professor

**Dr. Riffat Asim Pasha, PhD UET Taxila**

**Engr. M. Kashif Iqbal**

**Engr. Zahid Suleman Butt**

# Courses of Study for Undergraduate Program

## BSc Mechatronics Engineering

### 1st Semester

Course No.	Course Title	Credit Hours	
		Part I	Part II
GS-111	Calculus and Analytic Geometry	3	0
HS-112	Communication Skills	3	1
GS-113	Applied Physics	3	0
MT-114	Workshop Practice	0	1
ET-115	Electric Circuits and Network Analysis	3	1
HS-116	Islamic Studies	2	0

## List of Elective Courses

## Social Sciences Elective (3+0)

- Professional Ethics
- Sociology and Development
- Organizational Behaviour
- Or any other relevant course (s)

## Management Sciences Elective (3+0)

- Engineering Management
- Entrepreneurship, Leadership and Team Management
- Principles of Management
- Research Methodology
- Production Management
- Or any other relevant course (s)

## Engineering Electives-I (3+1)

- Modeling and Simulation
- Filter Design and Digital Signal Processing
- Artificial Intelligence
- Embedded Systems
- Or any other relevant course (s)

## Engineering Electives-II (3+1)

- Machine Vision
- Digital Control
- Advanced Control Systems
- Neuro-Fuzzy Control
- Special Topics in Mechatronics
- Machine Learning
- Digital Image Processing
- Or any other relevant course (s)

## ADMISSION SCHEDULE FOR UNDERGRADUATE ADMISSION- ENTRY 2012

# 40

Internet submission of Entry Test Form	13-Aug-2012
Entry Test (centralized)	16-Sep-2012
Availability of Undergraduate Prospectus + Admission Form	16-Sep-2012
Last Date of Submission of Admission Form	01-Oct-2012
Hifz-e-Quran Test	03-Oct-2012
1st Merit List on the Notice Board /website	10-Oct-2012
2nd Merit List on the Notice Board /website	16-Oct-2012
3rd Merit List on the Notice Board /website	22-Oct-2012
Issuance of Registration No to admitted students	12 & 13-Nov-2012
START of 1st Scemester Class	14-Nov-2012
Admission Closed	14-Dec-2012

### Important Notes:

- Regardless of the date and time of dispatch, no application shall be entertained after the last date.
- The selected candidate in a merit list must join the university within specified time limit as per requiremnets laid down under clause 37, failing which his name shall be dropped from the particular category and no claim on whatever grounds shall be entertained there after.
- No call letters shall be posted to selected candidates. The detailed lists can be viewed at the official website of the university at **admissions.uettaxila.edu.pk**
- The display of metit lists shall continue till the date of admission is closed.

### Convener

Prof. Dr. Rafi Javed Qureshi	051-9047412
Dr. Muhammad Sultan (Deputy Conver)	051-9047446

### Members

Engr. Muhammad Kashif Iqbal, Assistant Professor	051-9047687
Engr. Syed Bilal Ahmed Zaidi, Lecturer	0519047657
Mr. Ishtiaq Ahmad, Programmer CED	0519047664

The ideal engineer is a composite ..... He is not a scientist, he is not a mathematician, he is not a sociologist or a writer; but he may use the knowledge and techniques of any or all of these disciplines in solving engineering problems.

*N. W. Dougherty, 1955*

## ACADEMIC SCHEDULE

(2k9, 2k10, 2K11)

### 3rd, 5th and 7th Semesters: (UNDERGRADUATE)

Registration	3rd Sept. 2012	01 Day
Teaching	04 Sept. 2012 – 26 Oct. 2012	08 Weeks
Mid. Semester Exam	29 Oct. 2012 – 02 Nov. 2012	01 Week
Teaching	05 Nov. 2012 – 28 Dec. 2012	08 Weeks
Prep Leave	29 Dec. 2012 – 06 Jan. 2013	01 Week
End Semester Exams	07 Jan. 2013 – 11 Jan. 2013	01 Week
Semester Break	12 Jan. 2013 – 27 Jan. 2013	02 Weeks

### 4th, 6th and 8th Semester: (UNDERGRADUATE)

Registration	28 Jan. 2013	01 Day
Teaching	29 Jan. 2013 – 22 March 2013	08 Weeks
Mid. Semester Exam	25 March 2013 – 29 March 2013	01 Week
Teaching	01 Apr. 2013 – 24 May 2013	08 Weeks

فطرت کا ہے ارشاد کہ ہر شب کو سحر کر  
(علامہ اقبال)

and being knowledgeable; engineering is not merely analysis; engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems; engineering is practicing the art of the organized forcing of technological change... Engineers operate at the interface between science and society... There is the satisfaction of watching a figment of the imagination emerge through the aid of science to a plan on paper. Then it moves to realiseation in stone or metal or energy. Then it brings homes to men or women. Then it elevates the standard of living and adds to the comforts of life. This is the engineer's high privilege... "Engineering is the art of organizing and directing men and controlling the forces and materials of nature for the benefit of the human race". "Engineering is the professional art of applying science to the optimum conversion of natural resources to the benefit of man".
